

Our ref: Glenfield Waste Services Resource Recovery Facility (SSD-6249)

Ms Jacqui Kennett
General Manager
Glenfield Waste Services
PO Box 19
Glenfield NSW 2167
Attention: Mr Cameron Gray, Willowtree Planning

9 November 2022

Subject: Amendment of Development Application

Dear Ms Kennett

I refer to your letter dated 8 November 2022 requesting an amendment be made in accordance with the Environmental Planning and Assessment Regulation 2000 (the Regulation) to the development application for the Glenfield Waste Services Resource Recovery Facility (SSD-6249).

You have requested the following changes to the scope of the State significant development application:

- enclosure of the development including stockpiles and processing to be within two (2) warehouse buildings;
- removal of green waste for processing;
- reduction in the overall footprint of the built form;
- reduction in the number of loading docks to four (4), being one (1) per stockpile bay;
- addition of a roller door to the western elevation for haul trucks to bring in raw products to one of the stockpile bays;
- process plant relocated to be within the corridor between the raw product and the stored recycled product. That equipment can then float along that corridor on as-needs basis to crush/grind raw product where necessary;
- reduction in the overall vegetation removal, air and noise emissions and improved stormwater management as a result of the enclosure of the development; and
- four (4) lot Torrens Title subdivision of the Subject Site.

The Department has reviewed your request and notes the amendments have been proposed in response to noise and air quality concerns raised in public submissions and government authority advice including the Environment Protection Authority.

Accordingly, I as delegate of the Minister for Planning agree to the amendment of the development application for SSD-6249.

Department of Planning and Environment
