I would like to strongly object to the modifications that allow work on Block 11 of Central Park Broadway to have extend edt hours to 7pm and allow internal construction works to be carried out 24 hours a day 7 days a week. As it is, construction often goes to after 6pm on a week night so the construction company is already working illegally. Over the five or so years construction has been going on, the builders have often worked illegally. At one stage we had trucks coming on to the site at 3am in the morning. It was only after repeated complaints to Frasers that this practice was stopped. Frasers have also been completely uncooperative in stopping barking dogs in their Central Park apartment blocks. This company treats its neighbours with contempt and should not be allowed to cause more distress to people who want a bit of peace and quiet in their own homes.
