Lend Lease Building Pty Ltd
Level 4, 30 The Bond
30 Hickson Road
MILLERS POINT NSW 2000

Attention: Jeremy Tompson

Dear Jeremy,

BARANGAROO SOUTH, STAGE 1A – BUILDING C2 PLANNING APPLICATION (SSD 6425), HYDRAULIC INFRASTRUCTURE PROVISION

This letter addresses the Director Generals Requirements for the C2 building (SSD 6425) associated with the Barangaroo South Development.

The Water Supply infrastructure for Barangaroo South has included the anticipated loadings for Building C2 which has been agreed with Sydney Water as part of the approved servicing strategy for the precinct. The building shall be serviced from the new Sydney Water water mains to be constructed to service the precinct.

The sewer drainage for C2 is to be incorporated into the sewerage collection system located within the basement, and has been included in the loadings agreed with Sydney Water for the approved servicing plan.

Gas loadings for the building has been included in the servicing strategy approved by Jemena, and shall be serviced from the Jemena new gas main infrastructure to be constructed to service the precinct.

We trust the above meets your requirements

Yours Faithfully

Christopher Rust
Specialist Project Engineer
Lend Lease design, Building.
