

Architectural section drawing of a building facade. The drawing shows a long, low structure with a flat roof and a series of vertical supports. The roof is labeled with a red dashed line and the text "(E) OFF-FORM CONCRETE PARAPET" and "(E) OFF-FORM CONCRETE GUTTER". The main body of the building is labeled with a red dashed line and the text "(E) COLOURED FC CLADDING". The interior of the building is labeled with a red dashed line and the text "(E) WINDOWS BEHIND REFERENCE AND (E) RC HOOD". The ground level is indicated by a hatched area. The drawing includes several callouts and labels: "(E) OFF-FORM CONCRETE PARAPET", "(E) OFF-FORM CONCRETE GUTTER", "(E) COLOURED FC CLADDING", "(E) WINDOWS BEHIND REFERENCE AND (E) RC HOOD", and "(E) COLOURED FC CLADDING". There are also two circular callouts with numbers 4 and 5, and a red dashed line indicating a specific area.

This architectural section drawing illustrates the facade of the building along Gerard Street. The structure features a base of grey concrete or masonry, topped with a series of vertical panels labeled '(E)COLOURED FC CLADDING'. Above this, there are sections of brickwork labeled '(E)BLP' and large areas of stone cladding labeled '(E)RCOF'. A prominent feature is a sloped roofline section labeled '(E)RCOF' that is highlighted with a red dashed outline. This section includes a label '(N)EWIC' pointing to its upper surface. To the right, a series of horizontal elements are shown: an '(E)STEEL BALUSTRADE', an '(E)RC RETAINING WALL', and an '(E)RC GUTTER'. The ground level is indicated by a hatched area at the bottom, and the street name 'GERARD STREET' is written on the far right.

Diagram illustrating the cross-section of a parapet wall and roof assembly. The diagram shows the following components and labels:

- (N)PACKER/BACKET
- (N)EW/C AND TOPHAT
- (E) RC PARAPET
- FLASHING, COLOUR TO MATCH EWC
- POOLUM DRAINAGE SLOT
- (E)RC OF GUTTER
- 100 APPROX
- FALL

(E) RC PARAPET
