Climate Rights Newcastle and Hunter, Warners Bay NSW, made the following submission on the project:

[Narrabri Gas Project](#)

Objects to this project

I object to the Narrabri Gas Project due to its adverse social impacts on the people of the State of New South Wales. This project will have an adverse effect on the human rights of the citizens of this state.

The enormous carbon footprint of this project due to large fugitive emissions of methane will significantly add to the risk of catastrophic climate change. This will affect people's rights such as: the right to life, health, subsistence, shelter and water.

I believe the State of NSW has a duty to protect its citizens and therefore ask that this project be disallowed.
