## **RECC, Parkside SA, made the following submission on the project:**

### **[Narrabri Gas Project](#)**

---

#### **Comments on this project**

We are very disappointed at the dictatorial approach of both the Federal and many State governments towards residents and communities submissions. They are constantly just ignored and it appears the "consultation" process is just a token and an excuse to "legitimise" a foregone conclusion.

The bias against Communities is astonishing and the bias towards big corporations is tantamount to ecological suicide..

Fracking is dangerous. It pollutes the artesian waters and has been proven to trigger earthquakes. Many European countries have banned it for that reason.

Listen to science, communities and REASON

Stop the devastation of this beautiful land.

Yours sincerely

Laura Pieraccini

Coordinator

Residents for Environment and Character Conservation
