Dear Mr Ashe

Sears Input – Brewongle Solar Farm (SSD – 6483449P)

I refer to your request for input into the SEARS for the Brewongle Solar Farm.

In response I provide the following.

Council is currently in the process of reviewing its Bushfire Prone Mapping. Whilst this land is not currently mapped as bushfire prone, the likelihood is that grasslands will be considered bushfire prone in future.

Council has received a number of community submissions from the Glanmire Action Group in response to previous proposals for this land (Photon) and the more recent Glanmire Solar proposal. It is noted that the proponents have sought to engage with the Group and others within the vicinity.

Council notes the intention to use Tarana Road to access the site. Council currently is in the early phases (land acquisition) to upgrade the bridge over Saltwater Creek. Council also notes that the APA high pressure gas pipeline passes through the land and that the proposal water pipeline to service the McPhillamy Gold proposal is in the vicinity of the project.

Yours faithfully

R Denyer
