Dear Olivia,

**STEPHEN ROAD MULTI-LEVEL WAREHOUSE
EMBODIED EMISSIONS ASSESSMENT**

We have completed the *NABERS Embodied Emissions Material Form* to accompany the State Significant Development Application submission for the proposed project at 49-61 Stephen Road, Banksmeadow NSW. The quantities included within this assessment are extracted from our report as issued titled *49-61 Stephen Road Banksmeadow - EDC Estimate Report* dated 25 November 2024.

Our review is based on items as clearly identified in the form only and does not include any other additional items such as groundworks, fitout, finishes and soft landscaping. Where details are not available on the documentation, we have made assumptions based on our experience and expertise, in accordance with the level of detail in the design documentation used to compose our aforementioned report.

Rider Levett Bucknall accepts no responsibility, or liability, to any other party who might use or rely upon this report without our prior knowledge and written consent. Further, no portion of this report (included without limitation any conclusions which may affect value, the identity of Rider Levett Bucknall or its Sub-Contractors, or any individuals signing or associated with this report, or the Professional Associations or Organisations with which they are affiliated) shall be copied or disseminated to third parties, by any means, without the prior written consent and approval of Rider Levett Bucknall.

Should you have any queries, please do not hesitate to contact us.

Yours faithfully

Step 1: About the building

Building location and site data	Value	Unit
Building address	49-61 STEPHEN ROAD, BANKSMEADOW	
Postcode	2019	
Town/city	BANKSMEADOW + 2 other localities	
Distance to nearest major city/town	0	km
Project stage	Development Application	
New build or major renovation?	New build	
Brownfield or greenfield site?	Brownfield	

Floor area by NCC building classification	Gross (GFA)	Net (NLA/NSA/UFA)	Unit
Please enter all floor areas relevant to your building. Leave areas blank if not applicable. Please enter Gross Floor Area (GFA) for all building classifications. Please also enter the corresponding net area (Net Lettable Area, Net Sellable Area or Usable Floor Area) where it is commonly used for that building classification.

Step 2: Quantity of materials

Material category	Sub-category 1	Sub-category 2	Sub-category 3	Value	Unit of measure
Services					Unit of measure
Building services included <u>within the main building contract</u>. If the building components that are the subject of the development application or the construction certificate are base building only, then only enter these items. If you cannot split services by type, please enter them all in the "Other services" category at the bottom. Enter all values as material costs in dollars.

Step 3: Certifier details

The material quantities must be determined through an itemised list of building materials (such as a bill of quantities) and certified by a quantity surveyor, designer, engineer or NABERS Assessor.
