Dear Euan,

Re: S 96 Modification Cockle Bay

I just rang reception to talk to Keenan Coetzee of Turner and Townsend – and they said you'd be able to assist me. I am the town planner preparing a s96 Modification for this Project – funny thing is – the s96 mod is for a section of gangway that was in the original proposal and would be included in the costings in Appendix 5 attached – I would like assistance in know exactly which bit – that is where you come in (hopefully) I have included a letter I sent to The Department of Planning – to help you understand. Can I speak to you tomorrow? Thanks Lauren 0416 057 993

Regards,

Lauren Moore

Hello Lauren,

Thank you for your courtesy email regarding the Section 96 modification of SSD 6611 at Cockle Bay.

As you stated, we agree that the walkway was included in our assessment and that our initial report can be submitted with the Section 96 modification application without alteration.

All the best going forward with this project.

Kind regards,  
Dani

**Subject:** Cockle Bay Marine Structures SSD Determination 13 Nov 2015 Marine Archaeological Survey and Statement of Heritage Act

Dear Ms Wilby and Ms Wilkinson,

**Re: Cockle Bay Marine Structures SSD Determination (SSD 6611) Approved 13 Nov 2015 Appendix 6 Marine Archaeological Survey and Statement of Heritage Act**

Reference is made to the State Significance Development Application (SSD 6611). As you would be aware your company Cosmos Archaeology provided a report to Sydney Harbour Foreshores Authority (SHFA) which was attached as Appendix 6 in the Environmental Impact Statement (EIS) submitted with the initial application (your reference NoJ14/31 dated May 2015).

[http://majorprojects.planning.nsw.gov.au/index.pl?action=view\\_job&job\\_id=6611](http://majorprojects.planning.nsw.gov.au/index.pl?action=view_job&job_id=6611)

As a professional courtesy, Environet Consultancy Pty Ltd would like to advise that that a section of the proposed marine structure, in that application, namely the section adjoining the Australian National Maritime Museum (ANMM) proposed walkway was deleted from the plans in response to the "Reply to Submissions" (RTS) stage of the assessment, however, the proposed walkway is to be re-included and the subject of a Section 96 Modification Application prepared by Environet Consultancy.

Please be advised that the Secretary's Environmental Assessment Report states page 5 that, "The Applicant made a minor amendment to the proposal as part of the Response to Submissions report (RTS) which included removing a section of walkway beneath Pyrmont Bridge and a ramp connecting with the public promenade and foreshore land in front of the Australian National Maritime Museum on the western side of Cockle Bay. The revised design enables this section to be reinstalled in the future, if required."

As advised above this is just a professional courtesy at this stage as we are preparing the Section 96 Application - Environet Consultancy is writing to all the consultants who provided advice and are included in the EIS appendices.

Please be advised that the subject section of proposed walkway was included in the drawings your company referenced for your consult, and we envisage that there would be no impact or changes to your initial report. If this is the case then your report (unaltered) may be referenced in the Section 96 Modification Application, if your company had no objection. However, if we find that there would be any additional advice required, we will definitely contact your company in the first instance.

Should you require further information please don't hesitate to contact the undersigned.

Regards,

Lauren Moore  
Senior Town Planner

Appendix 8

Hi Lauren,

Please note that the traffic impact letter has assumed that the maritime museum connection exists when it was written. Therefore, as the connection was removed after the assessment was completed, adding it back on does not have an impact on its findings.

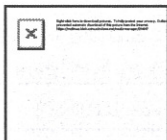

Regards,

Kenan

**Subject:** Cockle Bay Marine Structures SSD Determination 13 Nov 2015 Traffic and Parking Assessment Mott Mac

Dear Sir,

**Re: Cockle Bay Marine Structures SSD Determination (SSD 6611) Approved 13 Nov 2015 Appendix 2 Rygate Surveyors for Coffey Geotechnics Pty Ltd**

Reference is made to the State Significance Development Application (SSD 6611). As you would be aware your company Mott MacDonald provided Traffic & Parking Assessment (among other things) to Sydney Harbour Foreshores Authority (SHFA) which was attached as Appendix 8 in the Environmental Impact Statement (EIS) submitted with the initial application (your reference 341498).

[http://majorprojects.planning.nsw.gov.au/index.pl?action=view\\_job&job\\_id=6611](http://majorprojects.planning.nsw.gov.au/index.pl?action=view_job&job_id=6611)

As a professional courtesy, Environet Consultancy Pty Ltd would like to advise that that a section of the proposed marine structure, in that application, namely the section adjoining the Australian National Maritime Museum (ANMM) proposed walkway was deleted from the plans in response to the "Reply to Submissions" (RTS) stage of the assessment, however, the proposed walkway is to be re-included and the subject of a Section 96 Modification Application prepared by Environet Consultancy.

Please be advised that the Secretary's Environmental Assessment Report states page 5 that, "*The Applicant made a minor amendment to the proposal as part of the Response to Submissions report (RTS) which included removing a section of walkway beneath Pyrmont Bridge and a ramp connecting with the public promenade and foreshore land in front of the Australian National Maritime Museum on the western side of Cockle Bay. The revised design enables this section to be reinstalled in the future, if required.*"

As advised above this is just a professional courtesy at this stage as we are preparing the Section 96 Application - Environet Consultancy is writing to all the consultants who provided advice and are included in the EIS appendices.

Please be advised that the subject section of proposed walkway was included in the drawings your company referenced for your consult, and we envisage that there would be no impact or changes to your initial report. If this is the case then your report (unaltered) may be referenced in the Section 96 Modification Application, if your company had no objection. However, if we find that there would be any additional advice required, we will definitely contact your company in the first instance.

Should you require further information please don't hesitate to contact the undersigned.

Hello Alison, I didn't get a reply to the below email and I just re-rang head office and they gave me your email again – so I hope this gets through to you, this time.

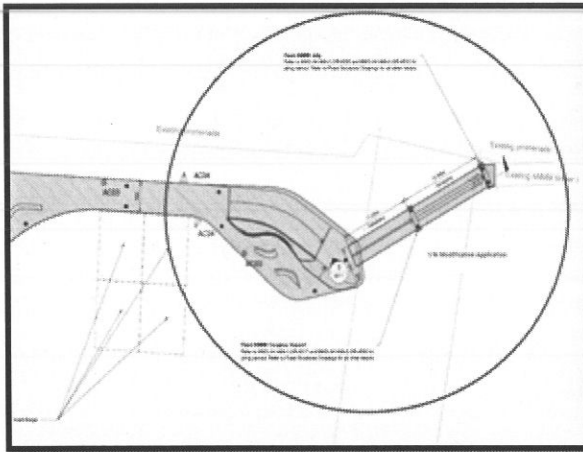

It really is a simple matter – we are lodging a section 96 modification application for part of the walkway that was deleted. Just wondering if you had any comments/concerns? Thanks Lauren

**Subject:** Cockle Bay Marine Structures SSD Determination 13 Nov 2015 Water Sediment Flora and Fauna Report by ERM

Dear Alison Lane and Belinda Ingpen,

**Re: Cockle Bay Marine Structures SSD Determination (SSD 6611) Approved 13 Nov 2015 Appendice 9 & 10 Water and Sediment Report and Flora and Fauna Report**

Reference is made to the State Significance Development Application (SSD 6611). As you would be aware your company ERM provided a report to Sydney Harbour Foreshores Authority (SHFA) which was attached as Appendix 9 & 10 in the Environmental Impact Statement (EIS) submitted with the initial application (your reference No. 0278780).

[http://majorprojects.planning.nsw.gov.au/index.pl?action=view\\_job&job\\_id=6611](http://majorprojects.planning.nsw.gov.au/index.pl?action=view_job&job_id=6611)

As a professional courtesy, Environet Consultancy Pty Ltd would like to advise that that a section of the proposed marine structure, in that application, namely the section adjoining the Australian National Maritime Museum (ANMM) proposed walkway was deleted from the plans in response to the "Reply to Submissions" (RTS) stage of the assessment, however, the proposed walkway is to be re-included and the subject of a Section 96 Modification Application prepared by Environet Consultancy.

Please be advised that the Secretary's Environmental Assessment Report states page 5 that, "*The Applicant made a minor amendment to the proposal as part of the Response to Submissions report (RTS) which included removing a section of walkway beneath Pyrmont Bridge and a ramp connecting with the public promenade and foreshore land in front of the Australian National Maritime Museum on the western side of Cockle Bay. The revised design enables this section to be reinstalled in the future, if required.*"

As advised above this is just a professional courtesy at this stage as we are preparing the Section 96 Application - Environet Consultancy is writing to all the consultants who provided advice and are included in the EIS appendices.

Please be advised that the subject section of proposed walkway was included in the drawings your company referenced for your consult, and we envisage that there would be no impact or changes to your initial report. If this is the case then your report (unaltered) may be referenced in the Section 96 Modification Application, if your company had no objection. However, if we find that there would be any additional advice required, we will definitely contact your company in the first instance.

Should you require further information please don't hesitate to contact the undersigned.

**Subject:** Cockle Bay Marine Structures SSD Determination 13 Nov 2015 Wilkinson Murray Air Quality and Noise and Vibration Assessments

Dear John Wassermann and Barry Murray,

**Re: Cockle Bay Marine Structures SSD Determination (SSD 6611) Approved 13 Nov 2015 Appendices 11 & 12 Air Quality Impact and Noise and Vibration Assessments**

Reference is made to the State Significance Development Application (SSD 6611). As you would be aware your company Wilkinson Murray provided the above reports to Sydney Harbour Foreshores Authority (SHFA) which were attached as Appendices 11 & 12 in the Environmental Impact Statement (EIS) submitted with the initial application (your reference No. 14387 – A (dated 11 Feb 2015) and 14387 – B (dated 12 Feb 2015)).

[http://majorprojects.planning.nsw.gov.au/index.pl?action=view\\_job&job\\_id=6611](http://majorprojects.planning.nsw.gov.au/index.pl?action=view_job&job_id=6611)

As a professional courtesy, Environet Consultancy Pty Ltd would like to advise that that a section of the proposed marine structure, in that application, namely the section adjoining the Australian National Maritime Museum (ANMM) proposed walkway was deleted from the plans in response to the "Reply to Submissions" (RTS) stage of the assessment, however, the proposed walkway is to be re-included and the subject of a Section 96 Modification Application prepared by Environet Consultancy.

Please be advised that the Secretary's Environmental Assessment Report states page 5 that, "The Applicant made a minor amendment to the proposal as part of the Response to Submissions report (RTS) which included removing a section of walkway beneath Pyrmont Bridge and a ramp connecting with the public promenade and foreshore land in front of the Australian National Maritime Museum on the western side of Cockle Bay. The revised design enables this section to be reinstalled in the future, if required."

As advised above this is just a professional courtesy at this stage as we are preparing the Section 96 Application - Environet Consultancy is writing to all the consultants who provided advice and are included in the EIS appendices.

Please be advised that the subject section of proposed walkway was included in the drawings your company referenced for your consult, and we envisage that there would be no impact or changes to your initial report. If this is the case then your report (unaltered) may be referenced in the Section 96 Modification Application, if your company had no objection. However, if we find that there would be any additional advice required, we will definitely contact your company in the first instance.

Should you require further information please don't hesitate to contact the undersigned.

Regards,

Lauren Moore  
Senior Town Planner

**Subject:** Cockle Bay Marine Structures SSD Determination 13 Nov 2015 Thompson Clarke Navigation & Safety Assessment

Dear Thompson Clarke,

**Re: Cockle Bay Marine Structures SSD Determination (SSD 6611) Approved 13 Nov 2015 Appendix 7 Navigation & Safety Assessment**

Reference is made to the State Significance Development Application (SSD 6611). As you would be aware your company Thompson Clarke provided a report to Sydney Harbour Foreshores Authority (SHFA) which was attached as Appendix 7 in the Environmental Impact Statement (EIS) submitted with the initial application (your reference No. Report Cockle Bay Marine Structures & Marina Upgrade Key Issues No 4 – Navigation & Safety dated Jan 2015)

[http://majorprojects.planning.nsw.gov.au/index.pl?action=view\\_job&job\\_id=6611](http://majorprojects.planning.nsw.gov.au/index.pl?action=view_job&job_id=6611)

As a professional courtesy, Environet Consultancy Pty Ltd would like to advise that that a section of the proposed marine structure, in that application, namely the section adjoining the Australian National Maritime Museum (ANMM) proposed walkway was deleted from the plans in response to the "Reply to Submissions" (RTS) stage of the assessment, however, the proposed walkway is to be re-included and the subject of a Section 96 Modification Application prepared by Environet Consultancy.

Please be advised that the Secretary's Environmental Assessment Report states page 5 that, "*The Applicant made a minor amendment to the proposal as part of the Response to Submissions report (RTS) which included removing a section of walkway beneath Pyrmont Bridge and a ramp connecting with the public promenade and foreshore land in front of the Australian National Maritime Museum on the western side of Cockle Bay. The revised design enables this section to be reinstalled in the future, if required.*"

As advised above this is just a professional courtesy at this stage as we are preparing the Section 96 Application - Environet Consultancy is writing to all the consultants who provided advice and are included in the EIS appendices.

Please be advised that the subject section of proposed walkway was included in the drawings your company referenced for your consult, and we envisage that there would be no impact or changes to your initial report. If this is the case then your report (unaltered) may be referenced in the Section 96 Modification Application, if your company had no objection. However, if we find that there would be any additional advice required, we will definitely contact your company in the first instance.
