Attention: Andrew Davis

Dear Andrew,

**BARANGAROO SOUTH, STAGE 1A – BUILDING R7 PLANNING APPLICATION (SSD 6623-2014),
COMMUNICATIONS INFRASTRUCTURE PROVISION**

This letter addresses the Secretary's Environmental Assessment Requirements (SEARs) for the R7 building (SSD 6623-2014) associated with the Barangaroo South Development.

The planning of the communications infrastructure for Barangaroo South precinct has included provision for the expected communications services for Building R7. Servicing of this area has been discussed with the appropriate wholesale telecommunications carriers inclusive of Telstra and Opticomm who currently have a defined presence in the precinct.

We can also confirm there is no additional impact to the existing infrastructure including no requirement for communications services relocations for the supply to Building R7.

We trust the above meets your requirements

Yours Faithfully
