Dear Tino

UNSW Biological Sciences Project, State Significant Development – SSD 6674 Utilities Services
Report/Statement – Communications

“Prepare an Infrastructure Management Plan in consultation with relevant agencies, detailing information on the existing capacity and any augmentation requirements for the development for the provision of utilities including staging of infrastructure shall be addressed.”

Aurecon, as Electrical Consultant for the development advise the following:

UNSW Kensington Campus operates its own internal communications network and has an agreed level of service defined with the Australian Communication and Media Authority.

The development has no impact on the Australian Communication and Media Authority, the existing capacity (in relation to external utilities) and no augmentation for the same is required.

We confirm that the Communications infrastructure will be managed within the UNSW Kensington Campus by UNSW and will have no impact on the Australian Communication and Media Authority.

Yours sincerely

A handwritten signature in blue ink that reads "J. A. Corbett".

Jason Corbett
Technical Director
