Dear Ms Cross

**Bango Wind Farm (SSD 6686)
Revised Final Layout**

I refer to your revised final layout dated 16 July 2020 and supporting information dated 17 July 2020 for the Bango Wind Farm project submitted in accordance with condition 12 of Schedule 2 of the development consent for SSD 6686.

The Department notes that the revised layout:

- microsited a number of turbines;
- identifies temporary rock crushing locations.

The Department notes you have confirmed that the microsited locations meet the relevant micrositing conditions in the consent.

The Department also notes that construction noise from the rock crushing locations will need to meet the relevant noise conditions of the consent and your Environment Protection Licence.

Accordingly, the Secretary approves the revised final layout plan.

If you wish to discuss the matter further, please contact Iwan Davies on 9274 6296 or iwan.davies@planning.nsw.gov.au.

Yours sincerely
