In-fill Affordable Housing

#### **Development details**

Application number	SSD-67419241
Project name	Infill Affordable Housing Leeds Street Rhodes
Location	25-27 Leeds Street, Rhodes within City of Canada Bay
Applicant	BILLBERGIA PTY. LTD.
Date of issue	09/02/2024

#### Content and guidance

Any Environmental Impact Statement (EIS) must meet the minimum form and content requirements as prescribed by Part 8 of the *Environmental Planning and Assessment Regulation 2021* (EP&A Regulation) and the *State Significant Development Guidelines*.

Relevant policies and guidelines can be found at <u>https://www.planningportal.nsw.gov.au/major-projects/assessment/policies-and-guidelines</u>.

#### Key issues and documentation

lss	ue and Assessment Requirements	Documentation	
1.	Statutory Context	•	Address in EIS
•	Address all relevant legislation, environmental planning instruments (EPIs) (including drafts), plans, policies and guidelines.		
•	Identify compliance with applicable development standards and provide a detailed justification for any non-compliances.		
•	Provide an explanation of how the development as described in the EIS is consistent with the development as was described in the request for SEARs (including any components that were not SSD) and provide a justification for any differences.		
•	Address the requirements of any approvals applying to the site, including any concept approval or recommendation from any Gateway determination.		
•	Provide documentation that a registered community housing provider will manage the affordable housing component of the development for 15 years		

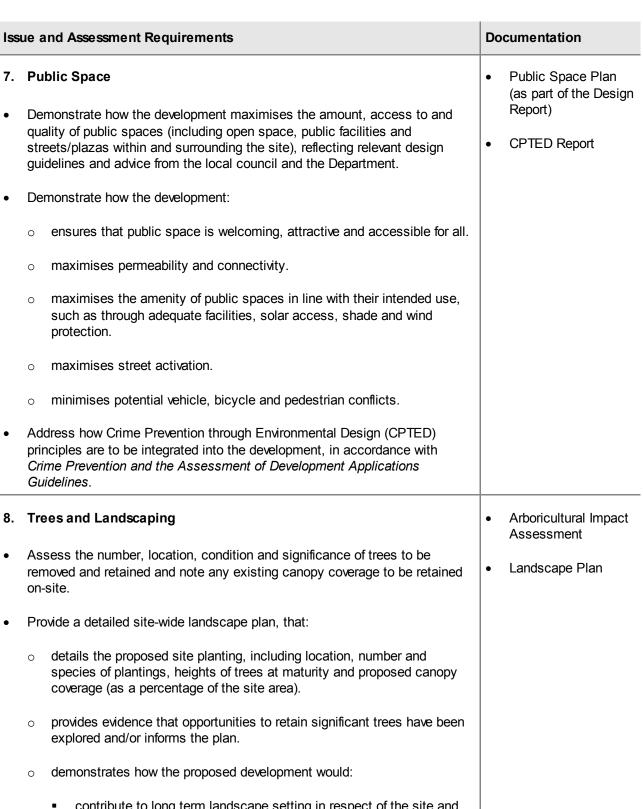

Issue and Assessment Requirements		Documentation
	(after issue of Occupation Certificate).	
2.	Capital Investment Value and Employment	Quantity Surveyor     Report
•	Provide a detailed calculation of the capital investment value (CIV) of the development prepared by a AIQS Certified Quantity Surveyor or RICS Chartered Quantity Surveyor in accordance with <i>Planning Circular PS 21-020: Calculation of Capital Investment Value</i> . The calculation of the estimated CIV is to be accurate at the date of application and include details of all components and assumptions from which it is derived.	
•	The detailed calculation of the CIV must specify the CIV of the residential component of the development.	
•	Provide an estimate of the retained and new jobs that would be created during the construction and operational phases of the development, including details of the methodology to determine the figures provided.	
3.	Design Quality	Design Excellence     Strategy (where
•	Demonstrate how the development will achieve:	design excellence is required by an EPI)
	• design excellence in accordance with any applicable EPI provisions.	Competition Report
	<ul> <li>good design in accordance with the seven objectives for good design in <i>Better Placed</i>.</li> </ul>	(where a competitive design process has been held)
•	Demonstrate that the development:	been heidy
	<ul> <li>where required by an EPI or concept approval, or where proposed, has been subject to a competitive design process, carried out in accordance with an endorsed brief and Design Excellence Strategy; or</li> </ul>	Design Review     Report (where the     project has been     reviewed by the
	<ul> <li>in all other instances, has been reviewed by the State Design Review Panel (SDRP) where required under the NSW SDRP: Guidelines for Project Teams.</li> </ul>	SDRP)
•	Recommendations of the jury and Design Integrity Panel (where a competitive design process has been held) or the SDRP are to be addressed prior to lodgement.	
4.	Built Form and Urban Design	Architectural     drawings
•	Explain and illustrate the proposed built form, including a detailed site and context analysis to justify the proposed site planning, design approach and application of the height and floor space bonuses under the Housing SEPP.	Design Report

Iss	ue and Assessment Requirements	Documentation	
•	Demonstrate how the proposed built form (layout, height, bulk, scale, separation, setbacks, interface and articulation) addresses and responds to the context, site characteristics, streetscape and existing and future character of the locality.	<ul> <li>Survey Plan</li> <li>Building Code of Australia Compliance Report</li> </ul>	
	including consideration of façade design, articulation, activation, roof design, materials, finishes, colours, any signage and integration of services.	Accessibility Report	
•	Assess how the development complies with the relevant accessibility requirements.		
•	Provide a floorplan outlining the gross floor area and units that are dedicated as affordable housing.		
5.	Environmental Amenity	Shadow Diagrams	
•	Address how good internal and external environmental amenity is achieved, including access to natural daylight and ventilation, pedestrian movement throughout the site, access to landscape and outdoor spaces.	Design Verification Statement     Chapter 4 Housing	
•	Assess amenity impacts on the surrounding locality, including lighting impacts, reflectivity, solar access, visual privacy, visual amenity, view loss and view sharing, overshadowing and wind impacts. A high level of environmental amenity for any surrounding residential or other sensitive land uses must be demonstrated.	<ul> <li>Chapter 4 Housing SEPP Assessment (ADG)</li> <li>View Analysis</li> </ul>	
•	Provide a solar access analysis of the overshadowing impacts of the development within the site, on surrounding properties and public spaces (during summer and winter solstice and spring and autumn equinox) at hourly intervals between 9am and 3pm, comparing the proposed development, existing situation and a development with no bonuses applied.	<ul> <li>Pedestrian Wind Environment Assessment</li> </ul>	
6.	Visual Impact	Visual Analysis	
•	Provide a visual analysis of the development from key viewpoints, including photomontages or perspectives showing the proposed and likely future development.	<ul> <li>Visual Impact Assessment</li> </ul>	
•	Where the visual analysis has identified potential for significant visual impact, provide a visual impact assessment that addresses the impacts of the development on the existing catchment.		

In-fill Affordable Housing

contribute to long term landscape setting in respect of the site and

Issu	sue and Assessment Requirements	Documentation
	streetscape.	
	<ul> <li>mitigate the urban heat island effect and ensure ap levels on-site.</li> </ul>	propriate comfort
	<ul> <li>contribute to the objective of increased urban tree of</li> </ul>	canopy cover.
	<ul> <li>maximise opportunities for green infrastructure, cor Greener Places and having regard to any bush fire</li> </ul>	
).	Ecologically Sustainable Development (ESD)	ESD Report
•	Identify how ESD principles (as defined in section 193 of the Regulation) are incorporated in the design and ongoing oper development.	
•	Demonstrate how the development will meet or exceed the recognised building sustainability and environmental perform	
	Demonstrate how the development minimises greenhouse g (reflecting the Government's goal of net zero emissions by consumption of energy, water (including water sensitive urb material resources.	2050) and
0.	D. Traffic, Transport and Accessibility Provide a transport and accessibility impact assessment, v	Transport and Accessibility Impact Assessment
	<ul> <li>an analysis of the existing transport network, including and any pedestrian, bicycle or public transport infrastru daily and peak hour vehicle movements, and existing p of nearby intersections.</li> </ul>	the road hierarchy icture, current • Construction Traffic Management Plan
	<ul> <li>details of the proposed development, including pedestri access arrangements (including swept path analysis of vehicle and height clearances), parking arrangements a (including bicycle and end-of-trip facilities), drop-off/pick bus bays (if applicable), and provisions for servicing and loading/unloading.</li> </ul>	an and vehicular f the largest and rates <-up-zone(s) and
	<ul> <li>analysis of the impacts of the proposed development de and operation (including justification for the methodolog predicted modal split, a forecast of additional daily and multimodal network flows as a result of the developmen standard modelling), identification of potential traffic implicit standard modelling).</li> </ul>	y used), including peak hour nt (using industry

In-fill Affordable Housing

ssue a	and Assessment Requirements	Do	cumentation
	capacity, intersection performance and road safety (including pedestrian and cyclist conflict) and any cumulative impact from surrounding approved developments.		
0	measures to mitigate any traffic impacts, including details of any new or upgraded infrastructure to achieve acceptable performance and safety, and the timing, viability and mechanisms of delivery (including proposed arrangements with local councils or government agencies) of any infrastructure improvements in accordance with relevant standards.		
0	proposals to promote sustainable travel choices for employees, residents, guests and visitors, such as connections into existing walking and cycling networks, minimising car parking provision, encouraging car share and public transport, providing adequate bicycle parking and high quality end-of-trip facilities, and implementing a Green Travel Plan.		
co wit	by bound by the provided and the provided and the provided a Construction Traffic Management Plan detailing predicted instruction vehicle routes, access and parking arrangements, coordination h other construction occurring in the area, and how impacts on existing flic, pedestrian and bicycle networks would be managed and mitigated.		
I. Bie	Biodiversity		Biodiversity
ac As De	sess any biodiversity impacts associated with the development in cordance with the <i>Biodiversity Conservation Act 2016</i> and the <i>Biodiversity sessment Method 2020</i> , including the preparation of a Biodiversity velopment Assessment Report (BDAR), unless a waiver is granted, or the e is on biodiversity certified land.		Development Assessment Repo or BDAR Waiver
ide de	he development is on biodiversity certified land, provide information to entify the site (using associated mapping) and demonstrate the proposed velopment is consistent with the relevant biodiversity measure conferred by a biodiversity certification.		
2. No	ise and Vibration	•	Noise and Vibratio
rel as im	ovide a noise and vibration assessment prepared in accordance with the evant NSW Environment Protection Authority (EPA) guidelines. The sessment must detail construction and operational noise and vibration pacts on nearby sensitive receivers and structures and outline the oposed management and mitigation measures that would be implemented.		Impact Assessme
3. Gr	ound and Water Conditions	•	Geotechnical Assessment

Assess potential impacts on soil resources and related infrastructure and

Iss	ue and Assessment Requirements	Documentation
•	<ul> <li>riparian lands on and near the site, including soil erosion, salinity and acid sulfate soils.</li> <li>Provide a Surface and Groundwater Impact Assessment that assesses potential impacts on:         <ul> <li>surface water resources (quality and quantity) including related infrastructure, hydrology, dependent ecosystems, drainage lines, downstream assets and watercourses.</li> <li>groundwater resources in accordance with the relevant <i>Groundwater Guidelines</i>.</li> </ul> </li> </ul>	<ul> <li>Surface and Groundwater Impact Assessment</li> <li>Salinity Management Plan and/or Acid Sulfate Soils Management Plan</li> </ul>
14.	Water Management	Water Management     Plan
•	Provide an Integrated Water Management Plan for the development that:	
	<ul> <li>is prepared in consultation with the local council and any other relevant drainage or water authority.</li> </ul>	
	<ul> <li>outlines the water-related servicing infrastructure required by the development (informed by the anticipated annual and ultimate increase in servicing demand) and evaluates opportunities to reduce water demand (such as recycled water provision).</li> </ul>	
	<ul> <li>details the proposed drainage design (stormwater and wastewater) for the site including any on-site treatment, reuse and detention facilities, water quality management measures and nominated discharge points.</li> </ul>	
	<ul> <li>demonstrates compliance with the local council or other drainage or water authority requirements and avoids adverse downstream impacts.</li> </ul>	
•	Where drainage infrastructure works are required that would be handed over to the local council, or other drainage or water authority, provide full hydraulic details and detailed plans and specification of proposed works that have been prepared in consultation with, and comply with the relevant standards of, the local council or other drainage or water authority.	
15.	Flooding Risk	Flood Risk     Assessment
•	Identify any flood risk on-site having regard to adopted flood studies, the potential effects of climate change, and any relevant provisions of the <i>NSW Flood Risk Management Manual.</i>	
•	Assess the impacts of the development, including any changes to flood risk on-site or off-site, and detail design solutions and operational procedures to	

Issu	ue and Assessment Requirements	Documentation	
	mitigate flood risk where required.		
16. •	Contamination and Remediation In accordance with Chapter 4 of SEPP (Resilience and Hazards) 2021, assess and quantify any soil and groundwater contamination and demonstrate that the site is suitable (or will be suitable, after remediation) for	Preliminary Site     Investigation     If required:	
	the development.	<ul> <li>Detailed Site Investigation</li> <li>Remedial Action Plan</li> </ul>	
		<ul> <li>Preliminary Long-term Environmental Management Plan</li> </ul>	
17.	Waste Management	Waste Management     Plan	
•	Identify, quantify and classify the likely waste streams to be generated during construction and operation.	Hazardous Material     Survey	
•	Provide the measures to be implemented to manage, reuse, recycle and safely dispose of this waste.		
•	Identify appropriate servicing arrangements for the site.		
•	If buildings are proposed to be demolished or altered, provide a hazardous materials survey.		
18.	Aboriginal Cultural Heritage	Aboriginal Cultural	
•	Provide an Aboriginal Cultural Heritage Assessment Report prepared in accordance with relevant guidelines, identifying, describing, and assessing any impacts on any Aboriginal cultural heritage values on the land.	Heritage Assessmen Report	
19.	Environmental Heritage	Statement of     Heritage Impact	
•	Where there is potential for direct or indirect impacts on the heritage significance of environmental heritage, provide a Statement of Heritage Impact and Archaeological Assessment (if potential impacts to archaeological resources are identified), prepared in accordance with the relevant guidelines, which assesses any impacts and outlines measures to ensure they are minimised and mitigated.	Archaeological Assessment	

ssue and Assessment Requirements	Documentation	
20. Social Impact	Social Impact     Assessment	
<ul> <li>Provide a Social Impact Assessment prepared in accordance with the Social Impact Assessment Guidelines for State Significant Projects.</li> </ul>		
21. Infrastructure Requirements and Utilities	<ul> <li>Infrastructure Delivery,</li> </ul>	
<ul> <li>In consultation with relevant service providers:</li> </ul>	Management and Staging Plan	
<ul> <li>assess the impacts of the development on existing utility infrastructure and service provider assets surrounding the site.</li> </ul>		
<ul> <li>identify any infrastructure required on-site and off-site to facilitate the development and any arrangements to ensure that the upgrades will be implemented on time and be maintained.</li> </ul>		
<ul> <li>provide an infrastructure delivery and staging plan, including a description of how infrastructure requirements would be co-ordinated, funded and delivered to facilitate the development.</li> </ul>		
22. Bush Fire Risk	Bush Fire     Assessment	
• If the development is on mapped bush fire prone land, or a bush fire threat is identified on or adjoining the site, provide a bush fire assessment that details proposed bush fire protection measures and demonstrates compliance with <i>Planning for Bush Fire Protection</i> .		
23. Aviation	Aviation Report	
<ul> <li>If the development proposes a helicopter landing site (HLS), assess its potential impacts on the flight paths of any nearby airport, airfield or HLS.</li> </ul>		
<ul> <li>If the site contains or is adjacent to a HLS, assess the impacts of the development on that HLS.</li> </ul>		
24. Construction, Operation and Staging	Address in EIS	
<ul> <li>If staging is proposed, provide details of how construction and operation would be managed and any impacts mitigated.</li> </ul>		
25. Contributions and Public Benefit	Address in EIS	

Issue and Assessment Requirements		and Assessment Requirements	Documentation
•	agr wo	dress the requirements of any relevant contribution plan(s), planning reement or EPI requiring a monetary contribution, dedication of land and/or rks-in-kind and include details of any proposal for further material public mefit.	
•	fror and	nere the development proposes alternative public benefits or a departure in an existing contributions framework, the local council, the Department d relevant State agencies are to be consulted prior to lodgement and ails, including how comments have been addressed, are to be provided.	
26	. En	gagement	Engagement Report
•	the hov	tail engagement undertaken and demonstrate how it was consistent with <i>Undertaking Engagement Guidelines for State Significant Projects</i> . Detail v issues raised, and feedback provided have been considered and ponded to in the project. In particular, applicants must consult with:	
	0	the relevant Department assessment team.	
	0	any relevant local councils.	
	0	any relevant agencies (including the Western Parkland City Authority for development within the Western Parkland City).	
	0	the community.	
	0	if the development would have required an approval or authorisation under another Act but for the application of s 4.41 of the EP&A Act or requires an approval or authorisation under another Act to be applied consistently by s 4.42 of the EP&A Act, the agency relevant to that approval or authorisation.
