Sydney NSW 2000

Attention: Andrew Cowan

Dear Sir,

RE: PLANT 2 AT THE HORSLEY PARK BRICKWORKS SITE | 780 WALLGROVE ROAD, HORSLEY PARK

The purpose of this statement is to provide confidence to the Consent Authority that prior to the issue of any development consent for the above project that the building design shall fully comply with the Performance Requirements of the Building Code of Australia (BCA), as applicable within New South Wales.

The new works will include the construction of a new screening plant, staff office with associated amenities and facilities to accommodate a new kiln that will be used for the manufacture of concrete aggregate.

RAWFIRE Safety Engineering Pty Ltd have been engaged to review the fire hazards associated with the site and develop a fire safety strategy that will satisfy the fire safety Performance Requirements of the Building Code of Australia.

In particular, the fire safety assessment and fire engineering design shall focus on the following significant issues of life safety:-

- Occupant egress in the event of a fire emergency and the maintenance of tenable conditions for occupant evacuation and fire brigade intervention;
- Fire and smoke spread throughout the building and its impact on occupant egress;
- Site access and fire services design to facilitate fire brigade intervention.

We trust that the above information is sufficient for Consent Authority's needs with respect to fire safety design and compliance with the relevant building regulations in this regard.

Should any further information be required for a determination to be made please contact the undersigned on 02 9299 6605.

Yours faithfully

Thomas Newton

Fire & Life Safety Consultant
