

6th May 2014

Chris Ritchie
Manager, Major Development Assessment
NSW Planning and Infrastructure
23-33 Bridge Street,
Sydney NSW 2000

Dear Mr. Ritchie

RE: Proposed Lucas Heights Resource Recovery Park (Proposed Development) – Letter of Support

We understand that SITA Australia (SITA) intend to lodge a major project application in relation to the Proposed Development.

ANSTO is the owner of a significant portion of the land which is the subject of the Proposed Development as shown on the attached figure. ANSTO is currently negotiating with SITA the leasing arrangements that will apply if the Proposed Development proceeds.

Whilst ANSTO will not be in a position to consent to the development application until the leasing arrangements are agreed with SITA, ANSTO has no objection to the undertaking of an EIS for the Proposed Development.

ANSTO anticipates that as a landowner, it would be further consulted during the EIS process and as the results of the environmental impact assessments become available.

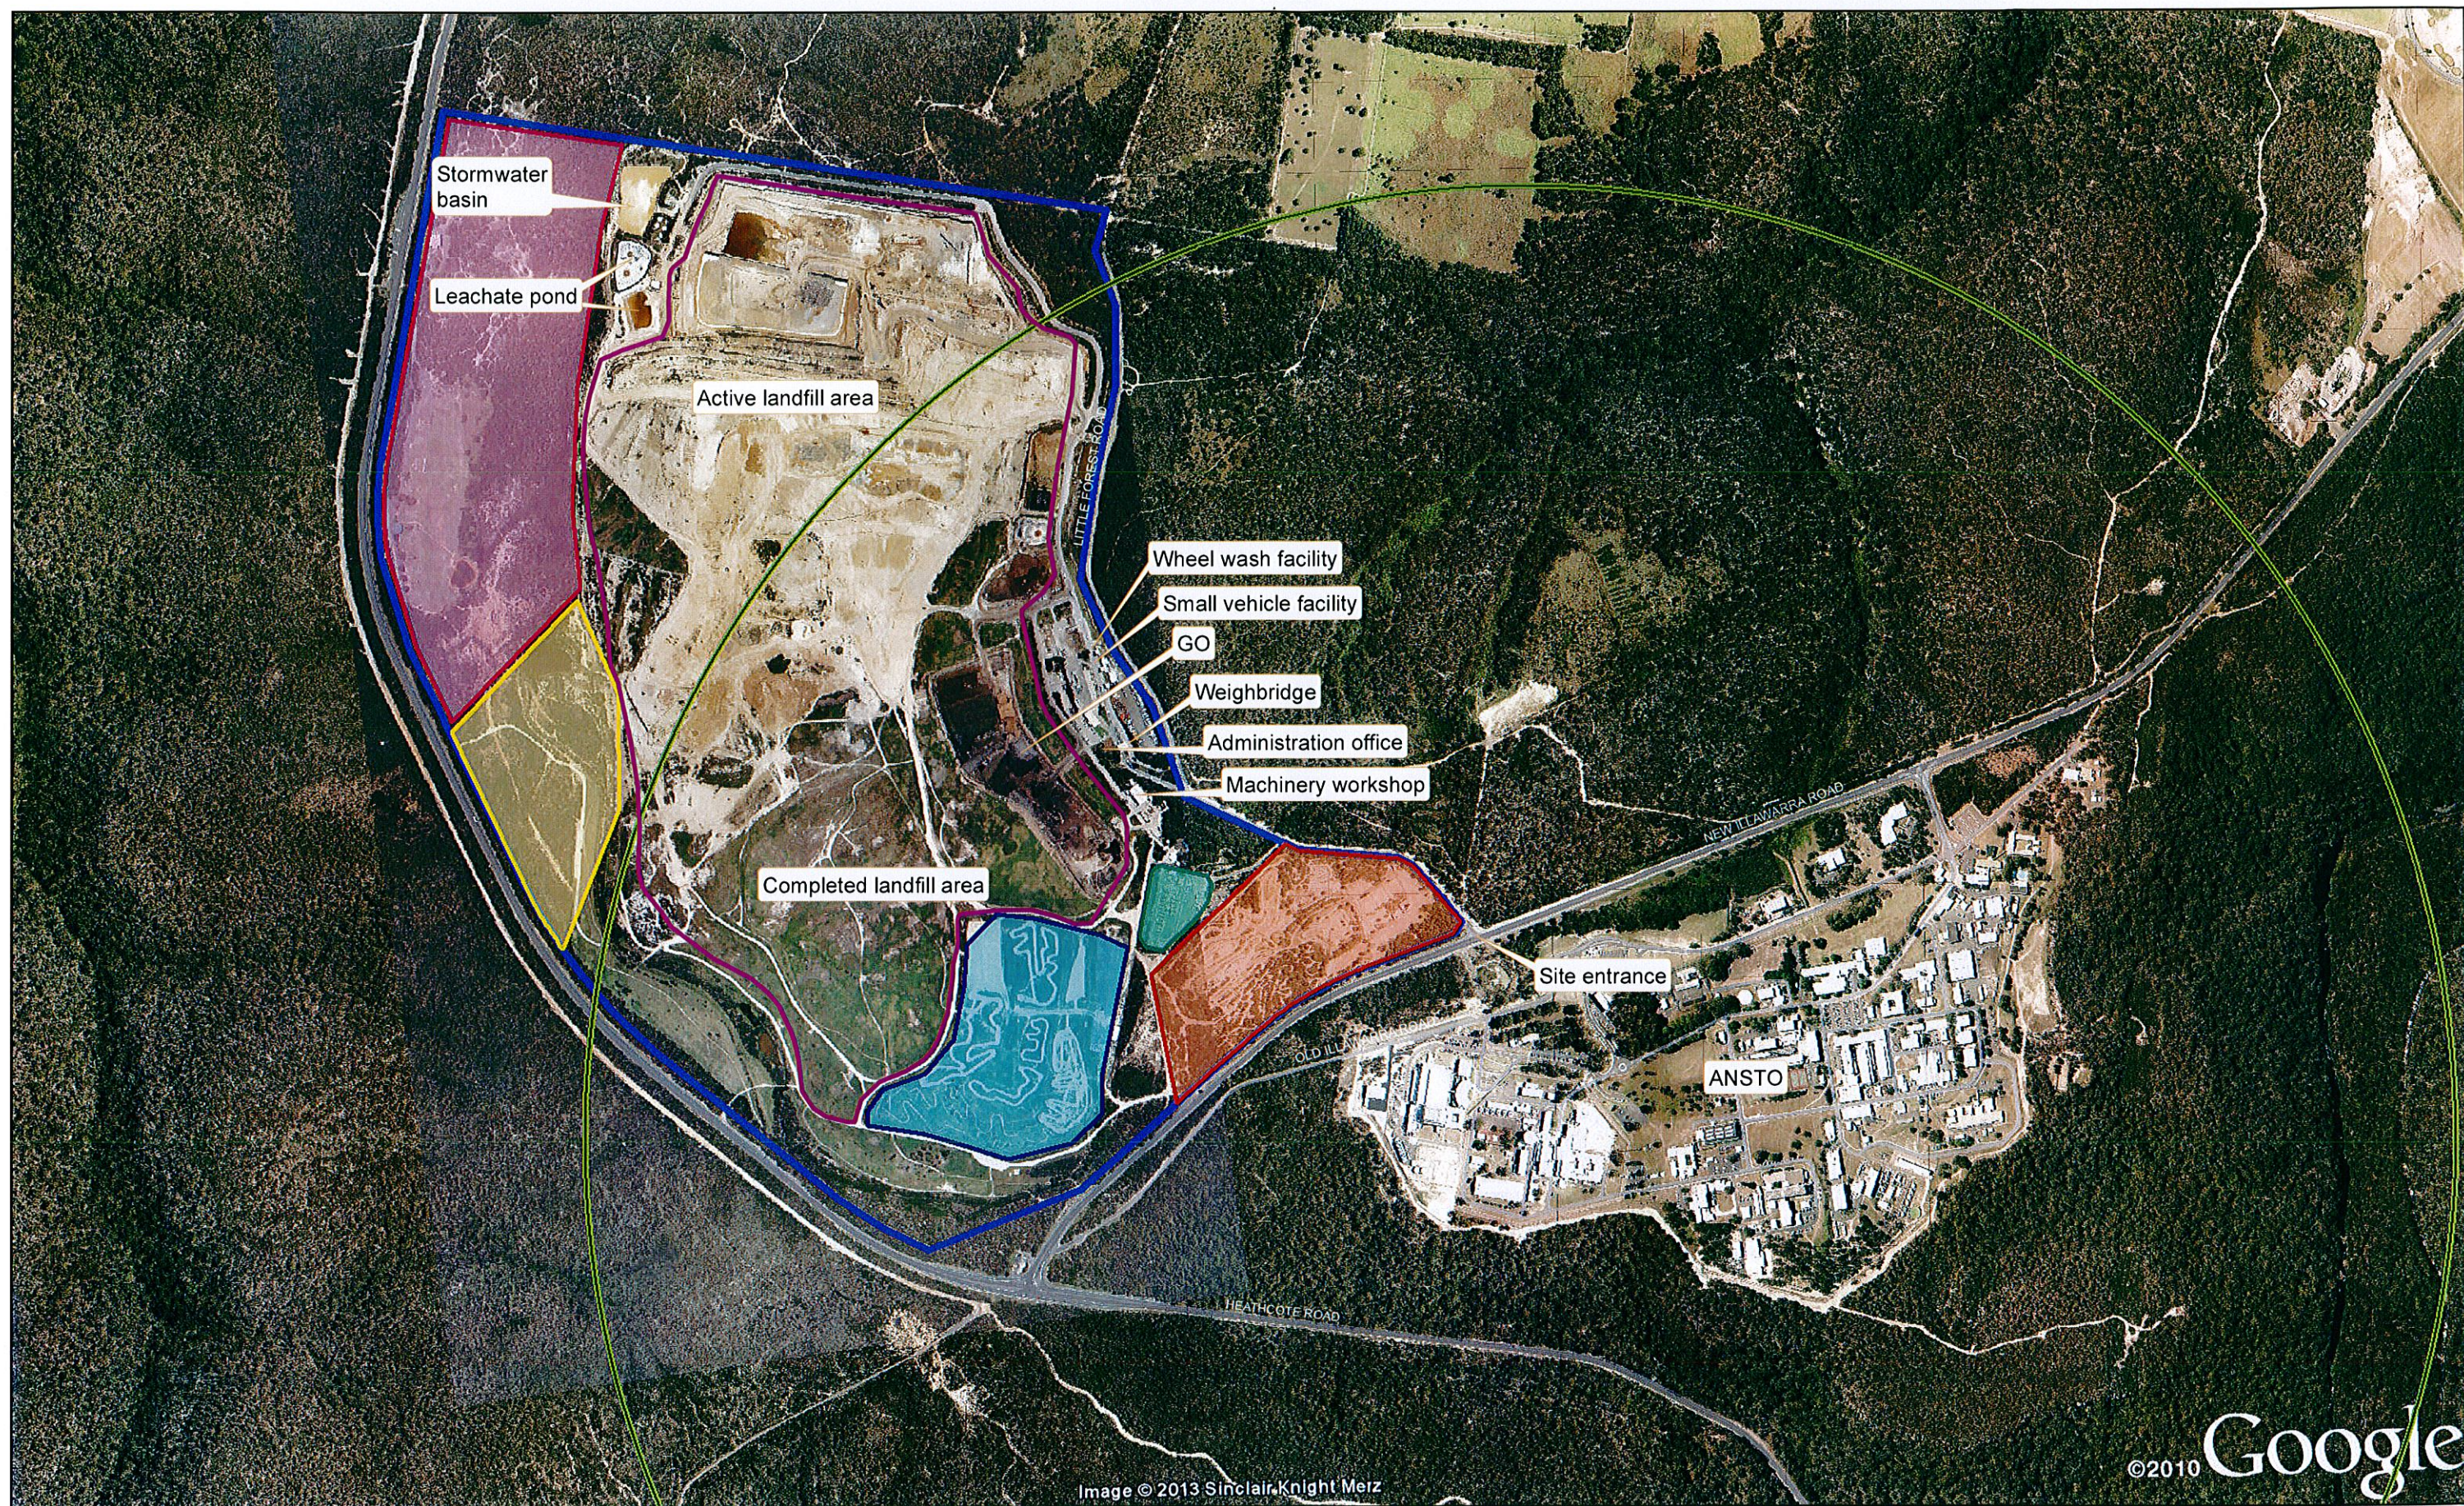

ANSTO would expect that its consent to the development application will be provided once all leasing arrangements with SITA are agreed. Given the potential application of the Environment Protection and Biodiversity Conservation Act (Cth) to the Proposed Development are you able to advise if any arrangements have been put in place with Commonwealth environmental authorities concerning assessment of the application?

If you have any questions, please do not hesitate to contact the undersigned.

Yours sincerely,

Peter Arambatzis,
ANSTO Group CFO
