Settlement Analysis

Client: SITA Australia

Project: Lucas Heights RRC Revised Landform - Settlement Modelling

Subject: Cover sheet

Job Number: 21-23396

Calcs by: C Nivison-Smith

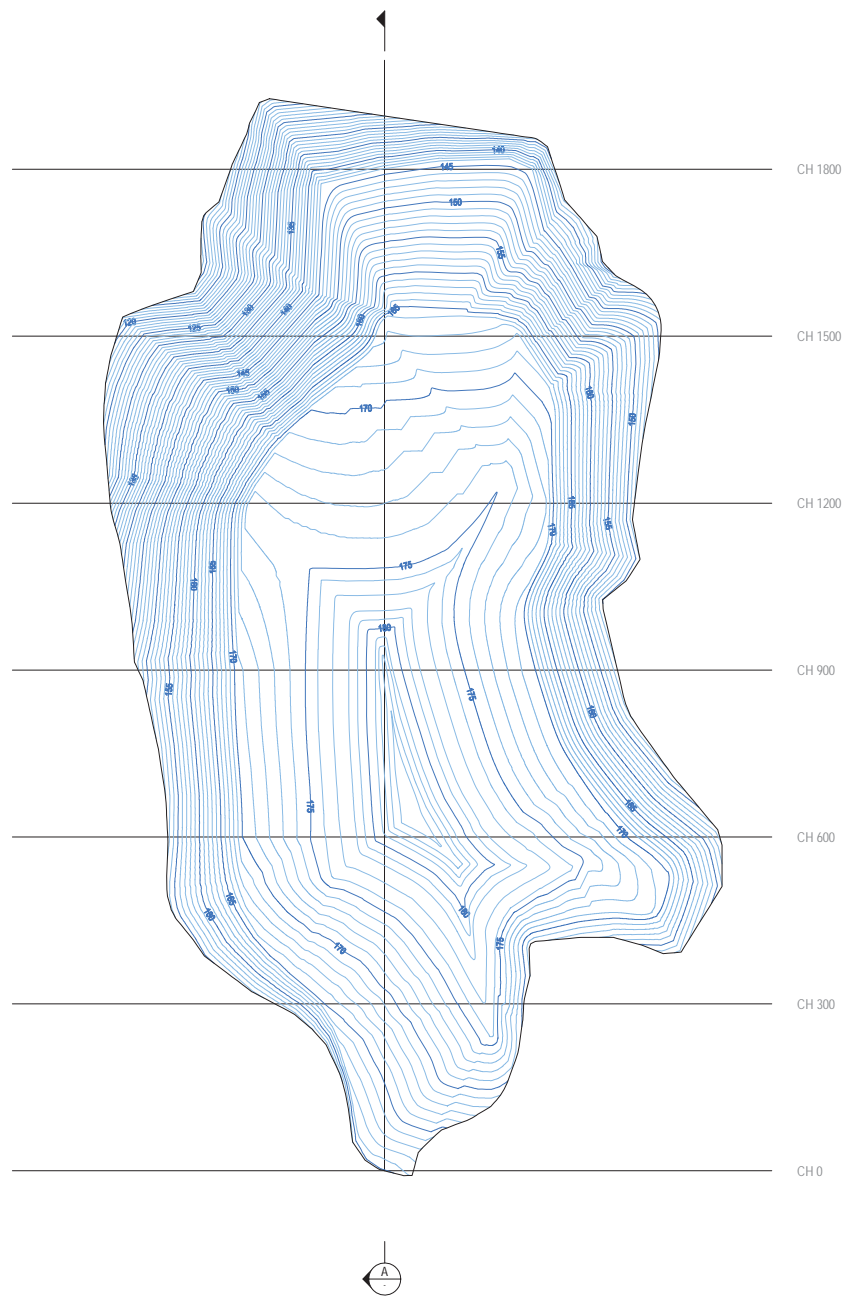

Checked by: A Roberts

Revision: A

Date of issue: 22-Jun-15

Date of review: 22-Jun-15

Purpose		
This analysis estimates the settlement which will occur at the areas to be reprofiled at the Lucas Heights Resource Recovery Centre and will be used to produce the pre and post-settled final landform.		
Sheet list	Date of issue Revision	
01	Inputs - waste heights - long section	22-Jun-15 A
02	Inputs - waste heights - cross sections	22-Jun-15 A
03	Settlement analysis - Section A-A (and graph)	22-Jun-15 A
04	Settlement analysis - Chainage 300 (and graph)	22-Jun-15 A

Date of issue 06-Aug-14
Date of review:

Statement of modelling procedure													
This spreadsheet provides an estimate of waste (tonnes) to be landfilled in each stage in each year. Assunmes 1 tonne waste per m3.													
Item	Description	Area										Unit	Notes
		E	D	B	A	C	F	I	H	G	Total		
Phase 3 - future waste (reprofiling)													
C1.01	2014 waste tonnage							164,651	164,651		329,301	t	SITA projections
C1.02	2015 waste tonnage							193,736	193,736		387,472	t	SITA projections
C1.03	2016 waste tonnage	335,718						167,859	167,859		671,435	t	SITA projections
C1.04	2017 waste tonnage	579,872	270,128								850,000	t	SITA projections
C1.05	2018 waste tonnage		527,821	322,179							850,000	t	SITA projections
C1.06	2019 waste tonnage			543,426	306,574						850,000	t	SITA projections
C1.07	2020 waste tonnage				118,813	731,187					850,000	t	SITA projections
C1.08	2021 waste tonnage					200,048	649,952				850,000	t	SITA projections
C1.09	2022 waste tonnage						4,494	845,506			850,000	t	SITA projections
C1.10	2023 waste tonnage							850,000			850,000	t	SITA projections
C1.11	2024 waste tonnage							850,000			850,000	t	SITA projections
C1.12	2025 waste tonnage							850,000			850,000	t	SITA projections
C1.13	2026 waste tonnage							44,040	805,960		850,000	t	SITA projections
C1.14	2027 waste tonnage								850,000		850,000	t	SITA projections
C1.15	2028 waste tonnage								850,000		850,000	t	SITA projections
C1.16	2029 waste tonnage								72,956	77,044	150,000	t	SITA projections
C1.17	2030 waste tonnage									150,000	150,000	t	SITA projections
C1.18	2031 waste tonnage									150,000	150,000	t	SITA projections
C1.19	2032 waste tonnage									150,000	150,000	t	SITA projections
C1.20	2033 waste tonnage									150,000	150,000	t	SITA projections
C1.21	2034 waste tonnage									148,215	148,215	t	SITA projections
C1.22	2035 waste tonnage									120,000	120,000	t	SITA projections
C1.23	2036 waste tonnage									120,000	120,000	t	SITA projections
C1.24	2037 waste tonnage									90,000	90,000	t	SITA projections
