Subject: RE: Drayton South Coal Project - 65/530/42-02
Date: Friday, 19 June 2015 11:27:17 AM
Attachments: [image001.png](#)

Good morning Matthew,

I advise that the revised Drayton South Coal Project, seeking approval for continuing operations and a New Open Cut Mining Area etc - SSD 6875 was recently circulated to ARTC's internal stakeholders for review.

Accordingly, I advise that ARTC has no objections to the proposal, however the proponent should assess any additional train movements on ARTC's network in accordance with the Rail Infrastructure Noise guideline.

A copy of the guidelines can be found by following the below link:
<http://www.epa.nsw.gov.au/resources/noise/20130018eparimg.pdf>.

The proponent will be required, if it has not already done so, to undertake and submit modelling to ARTC to determine the impacts on the overall operations of the Hunter Valley rail network.

I trust I have responded adequately, however should you require further information or clarification please do not hesitate to contact me.

Kind regards,

Teena Renés
