Hello James

I have not lodged a reply through the portal. I had trouble with the log in.

Council is generally satisfied with the proposed terms of the BESS. However the area is in a drinking water catchment for the entire region and so the hazard analysis should include an analysis as to whether firefighting water from a BESS fire has the potential to leave the site and adversely effect Lake Hume.

Hi Colin,

Thank you for your email. I have attached the relevant documents to this reply. Please confirm that you have received the documents and are able to open them. If you can provide your feedback via your

Major Projects account that would be ideal. However, if technical issues are preventing you from doing so, please attach a pdf copy of your feedback in a reply to this email.

If you have any questions, feel free to reach out.

Kind Regards,

James Bellamy
