# Landscape Node 1 - Plan & Section

Block seating, potentially incorporating salvaged heritage items (circa. 1850 brickwork)

To ensure adequate respite and relaxation amenity, Landscape nodes are proposed along the main spine road, interfacing with natural biodiversity landscape works. These nodes shall provide shade, visual separation from vehicles, views, seating, and potentially host interpretive art of European historical artefact found on site.

# Landscape Node 2 - Plan / Section

Nodes shall be strategically placed close to office administration areas, entries etc to 'cluster' activity, and provide convenience and accessibility for workers of nearby facilities.

Landscapes nodes shall also be used by pedestrians and cyclists, create a sense of place and legibility across the site.

The use of feature planting and pergola structures will further enhance these areas, and create a focal points for the greater estate

# Stage 1 Development

## Landscape Scope of Works

The landscape works described specifically in this report, and subsequent design development, shall consist of

- Estate Works: Streetscape works: street trees, verges, Landscape nodes, detention basins (and other civil related landscape requirements – i.e batters). These works shall be staged as per civil works.
- Precinct Works (on lot works): Each lot and precinct (combining of serval lots) shall be landscaped as building forms are developed.
