RE: CROWN SYDNEY HOTEL RESORT – STAGE 1C REMEDIATION AND EARTHWORKS

This is to certify that we have been commissioned by Crown Resorts Limited to carry out structural design on the above project.

We further certify that the structural design will be verified by a competent engineer who will not be involved in the original design. This check will ensure conformance of the structural design with Australian Standards and Codes relevant to the structural component, as referenced in the Building Code of Australia, and accepted engineering principles.

The structural elements covered by this certification are as follows:

- Perimeter Retaining Walls
- Capping Beams and Slab
- Associated lateral and vertical load resisting elements located within the excavated basement

Yours faithfully
ROBERT BIRD GROUP PTY LTD

GRANT WEIR
Group Managing Director
