Address: 30 The Bond
30 Hickson Road,
Millers Point, NSW 2000

**RE: PEDESTRIAN WIND ENVIRONMENT STUDY MEMO
DESIGN UPDATE REVIEW**

This letter is in regards to the effect of the changes in the design of the proposed development known as One Sydney Harbour. Wind tunnel testing has been undertaken by Windtech Consultants to determine the wind conditions around the subject site (report reference numbers below).

The latest architectural drawings (DA Revision 16) were prepared by project architect Renzo Piano Building Workshop, received 9th November, 2015. The drawings outlined in this latest design scheme are expected to provide similar wind conditions to those that have been tested in the wind tunnel. As such, additional wind tunnel testing is not required.

The recommended treatments outlined in the previously issued pedestrian wind environment reports (reference numbers below) are still applicable to the drawing set listed above. With the inclusion of these recommended treatments, wind conditions will remain suitable for their intended use.

Previously issued Pedestrian Wind Environment Reports:

- WA567-11F01(rev5) – WE Report R4A, dated 30th August, 2015
- WA567-11F02(rev5) – WE Report R4B, dated 30th August, 2015
- WA567-11F03(rev3) – WE Report R5, dated 30th August, 2015
