**Residential Building R5 (SSD-6966) MOD 2
Additional Information – Apartment Design Guide (ADG) Compliance, Storage
Barangaroo South**

Dear Jennie,

Internal and external storage has been measured and reported as part of the planning applications to SSD 6966, and compliance with the ADG minimum requirements has been achieved. By way of reference, **attached** is the ADG Schedules for Storage (Criteria 4G) for both Mod 1 and Mod 3, which demonstrates such ADG compliance.

As noted in earlier correspondence, MOD 2 will still result in Building R5 remaining compliant with the ADG Criteria for Storage requirements. Although there is a reduction of one cage under MOD 2, the development will still achieve the minimum ADG requirements through adequate provision of internal and external storage.

If you have any questions regarding this Application please call Assistant Development Manager, Francesca Bell on 0490 914 297 or myself on 0412 580 305.

Yours sincerely,
