Subject: Marulan South Limestone Mine Continued Operations Project – frequency of attended noise monitoring

Dear Mr Longhurst

I refer to your submission dated 4 August 2022, requesting approval of an alternative frequency for attended noise monitoring, specified under condition B7(g) of consent SDD 7009.

The Department has carefully reviewed the request against the prescribed consent of condition and is satisfied that the alternative monitoring frequency is sufficient for delivering the outcomes detailed in the Department's assessment report and the project's Environmental Impact Statement.

Accordingly, I approve the request to conduct attended noise monitoring on a quarterly basis as a minimum, as detailed in section 6.3.2 of the Noise Management Plane (revision 1, 23 March 2022).

If you have any questions, please contact me on 9274 6283 or via email at carl.dumpleton@planning.nsw.gov.au.

Yours sincerely
