Proposed Mixed-Use Re-development
and Adaptive Re-use of Heritage
Buildings, The Rocks.

Application Number SSD 7037.

I am writing this letter
to say that I object to
the above development.

The main reasons for
my objection are that the
Rocks area in Sydney as
well as surrounding buildings
are of great historical &
social significance to
the early development &
settlement of Sydney &
Australia.

The housing in
the Rocks was provided
for workers & families
working in the dockyards
& shipyards nearby & are

the only intact example of
19th century housing &
streetscape.

The proposed
development is also an
example of over development
& not in keeping with
historic buildings &
streetscapes nearby.

I have not made
any reportable dates in
the previous two years.

Thanking you

J. O'Neil
30.8.2017.
