

**COMMUNITY ENGAGEMENT TABLE**

**APPLICATION NUMBER: SSD-70557215 – HILLVIEW HARD ROCK QUARRY**

<b>Category</b>	<b>Key Issue Raised During Community Engagement</b>	<b>EIS Section/Appendix Reference</b>
Traffic Impacts and Road Infrastructure	Impacts on The Bucketts Way, including: quarry traffic volumes, existing disrepair of the road and potential further damage, road safety, function of the proposed intersection of Maytoms Land and The Bucketts Way, and effects on the intersection of The Bucketts Way and the Pacific Highway at Twelve Mile Creek.	<b>Section 6.4 &amp; Appendix L</b>
Economic, Environmental and Social Impacts	Health and amenity impacts of quarry operations, including air quality (e.g. dust, emissions), noise and vibration, blasting impacts and potential effects on water resources.	<b>Section 2.5, 6.3, 6.4 and 6.5 &amp; Appendices G, H, I and J</b>
	Potential cumulative impacts of the proposed quarry in the context of other operating or approved quarries in the surrounding areas.	<b>Section 2.4</b>
	Distribution of benefit, with the general view being that the quarry would result in no benefit for the local community.	<b>Section 6.12 &amp; Appendices S and T</b>
	Potential effects on specific landholders in near proximity to the site.	<b>Section 6 &amp; Appendices G, H, L, P and R</b>
	Effects of vegetation clearing for the quarry area and Maytoms Lane, potential loss of trees and effect on native animal habitats.	<b>Section 6.2 &amp; Appendix F</b>
	The project may create local employment and commercial opportunities (e.g. suppliers and contractors).	<b>Section 6.12 &amp; Appendices S and T</b>
Community Engagement	Dissatisfaction with the consultation/engagement approach and its extent.	<b>Section 5 and 6.12 &amp; Appendix S</b>
Strategic Context	Opposition to the proposed development on general presumption that the proposed development is not consistent with immediate land uses in terms of impacts on amenity	<b>Section 6.3, 6.4 and 6.8.4 &amp; Appendices G and H</b>
	Recognition that regional development of infrastructure and housing to meet population growth, and upkeep of existing infrastructure, requires access to quarried material.	<b>Section 2.1</b>
