Hi Lauren,

Thanks for providing the requested information. We have analysed the turbine locations and can provide the comments below.

Based on the location data provided, NSWTA will require a require a minimum of 135m clearance from turbines T44 and T47 to our Point to Point microwave link from Hay South to Wanganella (ACMA Lic# 11300366/1).

Our suggestion is to relocate T44 by a minimum of 95m towards West AND T47 by a minimum of 20m towards East.

Regards,

**Shaunak Patel**
