Hi Michele,

Appreciate the quick reply. Yes, I am happy to list this as an objection.
Thank you

Subject: SSD 7080- 88onRegent

Dear Michele,

I am appalled that this project is being given a green light. The scope of the project is completely out of line with local character. I cant see any plans for local infrastructure to match this number of people being added to this small area. Just another badly thought out corrupt project.

Thank you,
