Subject: Additional Vegetation Clearing

Dear Mr Lane

I refer to your submission dated 7 September 2023, requesting approval of additional vegetation clearing on the Eurobodalla Southern Storage Project SSD 7089. This is outlined in the revised Construction Flora and Fauna Management Plan for Stage 5 – Main Storage Construction (Rev G) and the Pre-clearing Assessment undertaken by Path Co Pty Ltd.

The Pre-clearing Assessment notes the total area of vegetation to be cleared is 1,029m² which is outlined in Figure 1 - Location of additional clearing areas. The Assessment found the site contained no important ecological features, threatened flora or EEC and recommended standard environmental construction management measures be implemented.

The Department has carefully reviewed the submission and are satisfied that it complies with the Conditions B2 - B6 of the Development Consent for SSD 7089.

You are reminded that if there are any inconsistencies between the revised Construction Flora and Fauna Management Plan for Stage 5 – Main Storage Construction (Rev G) and the conditions of approval, the conditions prevail.

If you wish to discuss the matter further, please contact Mark Wisely at the Department on 9873 8526 or via email at mark.wisely@planning.nsw.gov.au.

Yours sincerely

Lloyd Eley-Smith
Team Leader
Transport and Water Assessments

As delegate of the Planning Secretary
