

18 April 2016

**STAGE 2 DA AMENDMENT MIX USE DEVELOPMENT 'SYDNEY 1 PROJECT' – TOWER A
1 ALFRED STREET, SYDNEY**

Design Integrity Verification

The following list of items reflects the major changes between the current DA Approved Scheme and the proposed amendments:

- 9000mm height increase to the main tower volume
- Changes to internal layout
- Minor façade alterations

I verify that the main design ideas and therefore the design integrity of the original competition winning design has been maintained in the current proposed amendments.
