Dear Ann,

United Wambo Joint Venture SSD 7142
Request for Change to Submission Timeframe following Management Plan Review

Schedule 2 Condition E7 of SSD 7142 (the consent) requires United Wambo Joint Venture (UWJV) to review the suitability of existing strategies, plans and programs required by the consent within three months of the submission of an Independent Environmental Audit (IEA) or Annual Review. If revisions to documents are necessary, then the revised documents must then be submitted to the Department for approval within 6 weeks of the review, in accordance with Schedule 2 Condition E8 of SSD 7142.

UWJV submitted the latest IEA report to the Department on 27 December 2023. UWJV are currently reviewing existing strategies, plans and programs following the IEA, in accordance with Condition E7 of the consent. If revisions are required, then these revised documents need to be submitted to the department by 8 May 2024, in accordance with Condition E8 of the consent.

UWJV are currently preparing the Annual Review for the 2023 calendar year, in accordance with Condition E11 of the consent. The Annual Review is due for submission to the department by 31 March 2024. Any revisions to existing strategies, plans and programs, as a result of the 2023 Annual Review, are due for submission to the department by mid-August 2024.

At this stage UWJV only anticipates minor revisions to a number of documents following the IEA. As such, UWJV proposes to hold off on submitting the revised documents (following the IEA) until the management plan review is completed following submission of the 2023 Annual Review. This will eliminate the need to submit revised plans twice, within 3 months of each other. UWJV seeks department approval for this change.

If you have any questions or require any further information, please do not hesitate to contact me.
