Subject: United Wambo Coal Mine - Aboriginal objects find

Dear Ms Farnon

I refer to your letter dated 26 May 2026 and supporting salvage report (OzArk Environment and Heritage, May 2026) informing the Department that Aboriginal objects were identified during a due diligence inspection for the United Wambo Open Cut Coal Mine (SSD-7142).

The Department has carefully reviewed the information which describes the measures that are being implemented for the objects, including collection in accordance with the approved Aboriginal Cultural Heritage Management Plan.

Accordingly, the Planning Secretary is satisfied with the measures implemented in respect of the Aboriginal object under Condition B77(c) of Schedule 2 of SSD-7142.

Should you wish to discuss the matter further, please contact the undersigned at 9995 5387.

Yours sincerely

Jack Turner
Team Leader
Resource Assessments

As nominee of the Planning Secretary
