Dear Mr Freeman

Re: Hume Coal Project - Response to Submissions

Thank you for the opportunity to review the response to submissions document for the Hume Coal Project.

The main issues previously identified by South Western Sydney Local Health District (SWSLHD) in the Environmental Impact Statement with potential direct health impacts were air pollution, noise and water quality. The District has reviewed the response and would like to advise that the issues previously raised has been satisfactorily addressed.

Should you require any further information, please contact Dr Naru Pal, Director, Public Health Unit, SWSLHD, on 8778 0820.

Regards

Amanda Larkin
Chief Executive
