

**LEGEND**

-  **Tree planting zone.**  
Consisting of endemic medium to tall shrubs and tree planting species.
-  **Low Planting Zone over easements.**  
Consisting of endemic groundcovers, tussocks and low shrub species.
-  **Lawn Zone.**  
Manicured lawn areas.

**NOTE:** This plan shall be read in conjunction with architectural and civil drains

**LANDSCAPE WORKS**

The proposed landscape works shall consist of endemic plant species in compliance with the Urban Design and Visual Key Issues of the Secretary's Environmental Assessment Requirements (SEARs).

Proposed trees will be planted where locations permit, and at least two meters from buildings, retaining walls, fences and roadways. Planting will be selected for their maintenance, longevity and drought resistance.

Site soil will be stockpiled, ameliorated and utilised where possible. The removal of existing trees shall be mulched and also stockpiled on site for use on all planting beds.

**PROPOSED PLANT SPECIES**

BOTANICAL NAME	COMMON NAME
<b>Trees</b>	
<i>Acacia melanoxylon</i>	Blackwood
<i>Acmena smithii</i>	Lilyplily
<i>Allcasuarina species</i>	She Oak
<i>Angophora bakeri*</i>	Narrow-leaf Apple
<i>Backhousia myrtifolia</i>	Cinnamon Myrtle
<i>Banksia species*</i>	Banksia
<i>Eucalyptus species*</i>	Gum
<i>Melaleuca species*</i>	Paper Bark
<i>Hymenosporum flavum</i>	Native Frangipani
<i>Tristaniopsis species</i>	Water Gum
<b>Shrubs</b>	
<i>Austromyrtus tenuifolia</i>	Austromyrtus
<i>Baekea species</i>	Baekea
<i>Banksia species*</i>	Banksia
<i>Boronia species*</i>	Boronia
<i>Breynia oblongifolia</i>	Bush Pea
<i>Callistemon species</i>	Callistemon
<i>Dillwynia sericea*</i>	Showy Parrot Pea
<i>Dodonaea species</i>	Hop Bush
<i>Doryanthes excelsa</i>	Gymea Lily
<i>Kunzea species</i>	Kunzea
<i>Leptospermum species*</i>	Tea Tree
<i>Leucopogon species</i>	Beard Heath
<i>Melaleuca species*</i>	Melaleuca
<i>Pultenaea species</i>	Bush Pea
<b>Tussocks</b>	
<i>Baumea species**</i>	Sedge
<i>Carex species</i>	Common Sedge
<i>Dianella species*</i>	Flax Lily
<i>Eleocharis species**</i>	Spike Rush
<i>Gahnia species**</i>	Sword Sedge
<i>Isolepis species**</i>	Knobby Clubrush
<i>Juncus species**</i>	Sedge
<i>Lomandra species*/**</i>	Mat Rush
<i>Poa species</i>	Tussock Grass
<i>Themeda triandra*/**</i>	Kangaroo Grass
<i>Xanthorrhoea species</i>	Grass Tree
<b>Groundcovers</b>	
<i>Brachycome species</i>	River Daisy
<i>Goodenia species</i>	Goodenia
<i>Helichrysum species</i>	Everlasting Daisy
<i>Hibbertia species</i>	Hibbertia
<i>Myoporum species</i>	Creeping Boobialla
<i>Pimelea species</i>	Rice Flower
<i>Scaevola species</i>	Fan Floer
<i>Viola species</i>	Native Violet
<i>Zieria species</i>	Zieria

\* Plants representative of 'Cooks River/Castlereagh Ironbark Forest' communities.  
\*\* Plants for wetland - bio-retention basins.
