Record Number: 24/06269#17

[Planning Number: SSD-73123714](#)

Bowmans Creek Wind Farm Stage 2

The Department of Planning, Housing and Infrastructure – Crown Lands has reviewed the proposal.

As per section 2.3 of the Scoping Report, Crown Lands notes that there are Crown roads, Crown reserves and Crown waterways identified within the project area.

The Department requests that the proponent provide ESRI accessible GIS files (e.g. shapefiles) showing the project boundary and the proposed infrastructure, including access tracks, transmission lines, pipelines, storage and hardstand areas.

The EIS must include a description of all Crown land and roads impacted by the proposal, an assessment of the impacts, and the approval pathway for authorising the proposed use and occupation.

Crown Lands will also need to be referenced, prior to any use or occupation of any Crown roads or land, during the assessment phase.

If infrastructure is proposed to be built on Crown land or roads, the consent of the Minister for Lands and Property must be obtained, via Crown Lands. Further information regarding land owner's consent for Crown land and roads can be found at the following link [Forms and applications | Crown Lands \(nsw.gov.au\)](#)

If the proponent requires further information, or has any questions, please contact Mark Grace, NRM Project Officer in Crown Lands, on (02) 4937 9331 or at mark.grace@crowland.nsw.gov.au.

Yours sincerely

Peter Draper

Group Leader, Hunter
