FROM: Alexander Kobler

PROJECT: O'Connell St Public School

PROJECT NUMBER: 28504-SYD-G DATE: 29 March 2016

SUBJECT: Section J Building Glazing Compliance

This technical statement confirms that compliance with the NCC 2015 Section J Parts 1-3 is achieved for the O'Connell St Public School, Parramatta development. This development has the street address 24 O'Connell St, Parramatta.

This development is not providing any air conditioning services. As such, there are no minimum thermal performance requirements for the building fabric. The development complies with:

- Part J1 – Building Fabric
- Part J2 – Building Glazing
- Part J3 – Building Sealing

I trust the above is clear and demonstrates that the O'Connell St Public School meets the minimum fabric requirements outlined in Section J of the NCC 2015.
