Design Integrity Panel

Matthew Bennett (Chair), Digby Hall, Bob Nation

25th July 2025 - DIP Comments #3

Thank you for the opportunity to review the proposed amendments to this project and for the clarity of PBD's presentation (25/7/25).

We understand the amendments have been made in response to submissions and include technical adjustments and minor revisions. The Panel notes there are no significant changes to the architectural proposal and the items identified previously (DIP Letter 13/11/24) have been addressed. The strategy for the selection and locations of artwork can be conditioned as part of the assessment.

Conclusion

The Design Integrity Panel supports the proposed amendments as they do not impact the project's capacity to achieve design excellence. No further reviews are required prior to submission for assessment.

Yours sincerely,

A handwritten signature in black ink, appearing to read 'M. Bennett', with a stylized flourish at the end.

Matthew Bennett

Design Integrity Panel Chair
