Subject: Notice of Exhibition SSD 7491 - Proposed Dangerous Goods Facility Oakdale Central, Horsley Park, Fairfield LGA - modifications to Lot 3B only
Date: Thursday, 9 June 2016 1:01:57 PM

Hi Evelyn,

The proposal was sent to various sections of Council including to our Traffic Management Coordinator, our Planning section, Natural Areas Coordinator, Senior Engineer – Forward Planning, and to our Environmental Health Unit. Following consultation, each of Council's sections have raised no issue with the proposal.

Council's Traffic Management Coordinator considers that given that the development is outside of the Blacktown LGA, no detailed assessment is required from a traffic management point of view. He considers that the development does not have a significant impact on the Blacktown LGA road network, and noted that as the haulage and transport routes will seek to use the arterial road network, as much as possible, and trucks will use Milner Avenue and Old Wallgrove Road (currently being upgraded), and from there be able to access the regional road network, including the M7 Motorway, that given these facts, no objection is raised to the proposed development at Oakdale Central from a traffic management point of view.

Regards,

Ruth Bennett
