Subject: RE: Broken Hill North Mine - Mod 2

Dear Geoff,

I make reference to your email below and attached letter outlining the proposed modification to SSD 7538.

It is understood that the proposed modification do not seek to modify the daily maximum of 32 ore laden truck movements, or more than 4 ore laden truck movements per hour. The only modification sought is to have 16 ore laden truck movements per day when averaged over a calendar year.

Please be advised that Broken Hill City Council raises no objection to the proposed modification. Also, Council agrees that the proposed modification will have no impacts on the VPA and no modification to this will be required. Council is also confident that the proposal will have no impact on the local traffic and amenity of the City.

If you have any questions, please feel free to contact me.

Kind regards

Francois Van Der Berg

BROKEN HILL NSW 2880

Dear Mr Hender

**SSD-7538: Lots 7313, 7314, 7316, 7318 & 7319 DP 1185108 and Lots 3870, 3871 & 4143 DP 757298;
Broken Hill North Mine, Broken Hill; Proposed Modification of average rate of transportation**

Thank you for your letter dated 20 June 2019 advising Roads and Maritime Services of a proposal to modify condition 8 of SSD7568.

I note condition 8 reads as follows:

The Applicant must ensure that the development does not generate more than:

- (a) 32 ore laden truck movements per day;*
- (b) 4 ore laden truck movements per hour; and*
- (c) 16 ore laden truck movements per day when averaged over a calendar quarter.*

Due to production related issues, daily average transportation movements during the 2019 second quarter was only 11 per day. The current wording of condition 8, in specifically dot point (c), does not allow you to "make up" this loss over the remainder of 2019.

To address this occurrence, and the possibility of other similar occurrences during the life of the mines, you propose to amend dot point (c) to read:

(c) 16 ore laden truck movements per day when averaged over a calendar year.

Noting an amendment to the condition will not change maximum hourly or daily vehicle movements, Roads and Maritime will not object to the proposed modification to condition 8 of SSD-7538.

Please keep Roads and Maritime informed on the progress of this proposed modification. Should you require further information please contact Andrew McIntyre, Manager Land Use Assessment, on 02 6861 1453.

Yours faithfully

Dane Hendry
