Design Integrity Panel

Matthew Bennett (Chair), John Choi

16th July 2025

Thank you for the opportunity to review the proposed amendments to this project and for the clarity of Turner's presentation (16/7/25). The amendments have been made in response to submissions and include technical adjustments, minor revisions or corrections to the drawing set. The Panel notes there are no significant changes to the architectural proposal and the items previously identified requiring further consideration have been addressed (DIP Letter 11/11/24).

Conclusion

The Design Integrity Panel supports the proposed amendments as they do not impact the project's capacity to achieve design excellence. No further reviews are required by the Design Integrity Panel prior to submission for assessment.

Yours sincerely,
