

# Planning Secretary's Environmental Assessment Requirements

Seniors housing

## Development details

Application number	SSD-75493483
Project name	Forest Lodge Integrated Seniors Living
Location	2-32 Junction Street Forest Lodge within City of Sydney
Applicant	CORIO PROJECTS PTY LTD
Date of issue	06/09/2024

## Content and guidance

Any Environmental Impact Statement (EIS) must meet the minimum form and content requirements as prescribed by Part 8 of the *Environmental Planning and Assessment Regulation 2021* (EP&A Regulation) and the *State Significant Development Guidelines*.

Relevant policies and guidelines can be found at <https://www.planningportal.nsw.gov.au/major-projects/assessment/policies-and-guidelines>.

## Key issues and documentation

Issue and Assessment Requirements	Documentation
<p><b>1. Statutory Context</b></p> <ul style="list-style-type: none"><li>Address all relevant legislation, environmental planning instruments (EPIs) (including drafts), plans, policies, guidelines and planning circulars.</li><li>Identify compliance with applicable development standards and provide a detailed justification for any non-compliances.</li><li>Provide an explanation of how the development as described in the EIS is consistent with the development as was described in the request for SEARs (including any components that were not SSD) and provide a justification for any differences.</li><li>Address the requirements of any approvals applying to the site, including any concept approval, any endorsed or draft master plan, precinct plan or any recommendation from a Gateway determination.</li><li>Provide an accurate summary of the detailed assessment of the impacts of the project and integrate the findings and recommendations of technical reports into the justification and evaluation of the project as a whole.</li></ul>	<ul style="list-style-type: none"><li>Address in EIS</li></ul>
<p><b>2. Estimated Development Cost and Employment</b></p>	<ul style="list-style-type: none"><li>EDC Report</li></ul>

# Planning Secretary's Environmental Assessment Requirements

## Seniors housing

- Provide the estimated development cost (EDC) of the development prepared in accordance with the relevant planning circular using the Standard Form of EDC Report.
- The EDC Report must specify the EDC of the seniors housing component of the development.
- Provide an estimate of the retained and new jobs that would be created during the construction and operational phases of the development, including details of the methodology to determine the figures provided.

•

### 3. Design Quality

- Demonstrate how the development will achieve:
  - design excellence in accordance with any applicable EPI provisions.
  - good design in accordance with the seven objectives for good design in *Better Placed*.
- Demonstrate that the development:
  - where required by an EPI or concept approval, or where proposed, has been subject to a competitive design process, carried out in accordance with an endorsed brief and Design Excellence Strategy; or
  - in all other instances, has been reviewed by the State Design Review Panel (SDRP) where required under the *NSW SDRP: Guidelines for Project Teams*.
- Recommendations of the jury and Design Integrity Panel (where a competitive design process has been held) or the SDRP are to be addressed prior to lodgement.

- Design Excellence Strategy (where design excellence is required by an EPI)
- Competition Report (where a competitive design process has been held)
- Design Review Report (where the project has been reviewed by the SDRP)

### 4. Built Form and Urban Design

- Explain and illustrate the proposed built form, including a detailed site and context analysis to justify the proposed site planning and design approach.
- Demonstrate how:
  - the development considers the design principles in Part 5, Division 6 of *State Environmental Planning Policy (Housing) 2021* and the *Seniors Housing Guidelines 2021*.
  - the proposed built form (layout, height, bulk, scale, separation, setbacks, interface and articulation) addresses and responds to the context, site characteristics, streetscape and existing and future character of the locality.
  - the building design will deliver a high-quality development, including consideration of façade design, articulation, activation, roof design,

- Architectural drawings
- Design Report
- Survey Plan
- Building Code of Australia Compliance Report
- Accessibility Report

# Planning Secretary's Environmental Assessment Requirements

## Seniors housing

materials, finishes, colours, any signage and integration of services.

- Assess how the development complies with the relevant accessibility requirements.

### 5. Environmental Amenity

- Address how good internal and external environmental amenity is achieved, including access to natural daylight and ventilation, pedestrian movement throughout the site, access to landscape and outdoor spaces.
- Assess amenity impacts on the surrounding locality, including lighting impacts, reflectivity, solar access, visual privacy, visual amenity, view loss and view sharing, overshadowing and wind impacts. A high level of environmental amenity for any surrounding residential or other sensitive land uses must be demonstrated.
- Provide a solar access analysis of the overshadowing impacts of the development within the site, on surrounding properties and public spaces (during summer and winter solstice and spring and autumn equinox) at hourly intervals between 9am and 3pm, when compared to the existing situation and a compliant development (if relevant).
- For any applicable parts of the development, provide an assessment against SEPP 65 and the *Apartment Design Guideline*.

- Shadow Diagrams
- View Analysis
- Pedestrian Wind Environment Assessment

If required:

- SEPP 65 Verification Statement
- SEPP 65 Assessment

### 6. Visual Impact

- Provide a visual analysis of the development from key viewpoints, including photomontages or perspectives showing the proposed and likely future development.
- Where the visual analysis has identified potential for significant visual impact, provide a visual impact assessment that addresses the impacts of the development on the existing catchment.

- Visual Analysis
- Visual Impact Assessment

### 7. Public Space

- Demonstrate how the development maximises the amount, access to and quality of public spaces (including open space, public facilities and streets/plazas within and surrounding the site), reflecting relevant design guidelines and advice from the local council and the Department.
- Demonstrate how the development:
  - ensures that public space is welcoming, attractive and accessible for all.
  - maximises permeability and connectivity.
  - maximises the amenity of public spaces in line with their intended use, such as through adequate facilities, solar access, shade and wind protection.

- Public Space Plan (as part of the Design Report)
- CPTED Report
