Subject: RE: Pier 2/3 project

Dear Andrew

I am following up on the below email from 7th March to see if you have had time to review this as yet? I would like to ensure we have our voice heard at Pier One and ensure that we are well positioned to work closely with Planning NSW as well as the appointed contractors for this project hence my eagerness to ensure this channel is working.

Apart from the five points listed below a further point we would like to bring to the table for consideration is the (lack of) parking issue this project will pose both during construction (builders, trucks, increased worked in the area) as well as long term with increased traffic to the precinct. This has been brought up at Walsh Bay Committee meetings, in discussions with Nicholas Wolff and Kiara Neasy at our recent meetings (in December and in February) as well as on the web site which was open late last year for solicitation of objections/support for this project. We do support the project but did raise these concerns in all of these forums and would like to hear the plans short, medium and long term for this issues.

Thank you Andrew for your time, I am happy to invite you to the hotel to talk through these points in person but would like a written email to ensure we capture the plans clearly moving forward.

Regards

Kim Mahaffy

Subject: Pier 2/3 project

Dear Andrew

We have had a good meeting with Nicholas Wolff and Kiara Neasy in regards to the upgrade project planned for Pier 2/3 as well as the 4/5 project tentatively planned for July this year.

We are very supportive of this project but would like to get some clarification in writing on the following plans for the project-

- Traffic/noise management over the project period and who the point of contact would be
- Confirmed hours of works
- Communication channels once the contractor is appointed
- The schedule of works for the current under pier works planned for Pier 2/3 and 4/5 and who to contact with any business disruptions
- Written confirmation of the method of repair the Sydney Marine Corp is using to repair the under pier pylons

Nicholas mentioned that we should lodge these concerns on the web site but I have not been able to find the best way to do this. This is the web site I have for the project, is this where we would lodge these concerns?

http://majorprojects.planning.nsw.gov.au/index.pl?action=view_job&job_id=7689

Thank you for your help with this.

Kim
