Pick Points

Existing Trees

Existing Trees to Be removed

Tower Crane

The site plan illustrates the layout of 1 Darling Point Road, including building footprints, parking areas, and surrounding infrastructure. Key features include:

- Workzones:** Indicated by grey shaded regions along the road frontage and within the building's internal courtyards.
- Pick Points:** Two specific locations are marked: 'Pick Point 1' near the building entrance and 'Pick Point 2' near the 'NEW SOUTH HEAD ROAD' intersection.
- Existing Trees:** Represented by green circles of varying sizes, primarily located in the central courtyard and along the eastern boundary.
- Existing Trees to Be removed:** Represented by red circles, located in the central courtyard and near the eastern boundary.
- Tower Crane:** A crane symbol (a square with an 'X') is positioned in the central courtyard area.
- Dimensions:** A series of vertical dimension lines along the eastern boundary specify distances from the road edge to various features, ranging from 4.90m to 62.50m.
- General Notes:** A block of text on the left side of the plan provides references to various drawing series (01, 03, 60, 70-76, 85, 1DP-AT-25043-TRS, 1DP-AT-25043-FFE) for concrete, wall system, facade, interior, and door details.
- Scale and Location:** A scale bar indicates 1:100 @ A1. The address '1 Darling Point Road, 136-148 New South Head Road, Edgecliff' is provided at the bottom right.
