

CHAU CHAK WING MUSEUM

Every aspect of the Chau Chak Wing Museum has been purpose designed and specified to provide world-class facilities for exhibition displays, learning and collection storage.

The Chau Chak Wing Museum embraces vistas to the landscape from every public level, including the entrance, which is bathed in controlled natural light.

The circulation system is clear and exciting, linking all public spaces through a central triple height sky-lit atrium and encouraging visitors to explore and discover.

The exhibition galleries are highly flexible enabling the University to present diverse displays from large contemporary art installations to highly sensitive natural history specimens.
