OFFICIAL

Jess

CASA has reviewed the Aviation Safety section of the Draft SEARs (under 'Hazards and Risks') and the Aviation sections (6.1.5.1 and 6.1.5.2 and 6.1.5.3) of the Scoping Report for the proposed Bookham Wind Farm.

The Draft SEARs and the Scoping Report advise up to 99 turbines with a maximum height of 270 metres (to blade tip).

The Draft SEARs are satisfactory, and CASA has no additional assessment requirements. CASA has no issues with Aviation sections of the Scoping Report.
