Re: Rouse Hill Anglican College Redevelopment SSD 8006—Aboriginal Heritage Assessment Project Update

Dear Madam/Sir,

GML Heritage Pty Ltd (GML) has been engaged by the Anglican Schools Corporation to undertake the required Aboriginal heritage assessment for the State Significant Development (SSD) 8006.

The State Environmental Assessment Requirements (SEARs) were issued by the Department of Planning and Environment for the project on 2 November 2016. The stipulated requirements for Aboriginal heritage were as follows:

9. Aboriginal Heritage

Address Aboriginal heritage in accordance with the Guide to investigating, assessing and reporting on Aboriginal Cultural Heritage in NSW (OEH, 2011), and Aboriginal Cultural Heritage Consultation Requirements for Proponents 2010.

Previous Aboriginal Heritage Assessment

GML undertook a due diligence assessment in 2015 which identified that an Aboriginal Heritage Impact Permit (AHIP) under Section 90 of the *National Parks and Wildlife Act 1974* (NSW) (NPW Act) was required. However, since that assessment the project has become a State Significant Development. As an AHIP is not required for this approvals pathway under Part 4 of the *Environment Planning and Assessment Act 1979* (NSW) (EPA Act), the assessment process now adheres to the SEARs noted above. Therefore, the abovementioned guidelines have been followed for the purposes of obtaining SSD approval for the redevelopment.

Aboriginal Heritage Process

GML has started the Aboriginal community consultation process, and has recently submitted a project methodology and project information (Stage 2 of the *Aboriginal Community Consultation Requirements for Proponents 2010*) for Registered Aboriginal Parties (RAPs) to review and comment on. Our proposed assessment methodology is in line with the relevant policies identified in the SEARs. In preparing the relevant documentation suitable to support the SSD application, we will be undertaking the following tasks:

- continuation of formal Aboriginal community consultation, in accordance with the OEH consultation guidelines *Aboriginal cultural heritage consultation requirements for proponents 2010* (Department of Environment, Climate Change and Water [DECCW]);
- formal survey (following the requirements of the Code of Practice) of the study area with the RAPs;
- archaeological test excavation, to establish the presence/absence, nature and extent of any Aboriginal archaeological deposits across the study area;
- post-excavation analysis of all stone artefacts recovered (following the Code of Practice);
- write-up of test excavation methodology and results as part of an Archaeological Technical Report (ATR) required for the development; and
- preparation of an Aboriginal Cultural Heritage Assessment Report (ACHAR) which details the results of the community consultation and cultural significance assessment adhering to the *Guide to investigating, assessing and reporting on Aboriginal cultural heritage in NSW* (OEH, April 2011).

For detailed information concerning the timing of Aboriginal community consultation to date, please consult the attached Aboriginal Community Consultation Log.

I trust this letter provides advice and direction with respect to Aboriginal heritage management within the Rouse Hill Anglican College redevelopment. Should further information, such as the ATR and ACHAR, be required, it can be provided once prepared.

Yours sincerely
