

A) INTRODUCTION

Costin Roe were engaged by Prime Constructions to carry out a pre-construction dilapidation survey of the roads and kerbs bounding and within the development site, southern and eastern retaining walls in accordance with Appendix A-E.

The purpose of this report is to record the condition of all public infrastructure and assets, prior to the construction works at Lot K SFKC – 200 Adlington Road, Kemps Creek.

Our inspection of the area was conducted by Matthew Nguyen from Costin Roe Consulting and took place on the 12th of January 2026. The inspection was carried out in conjunction with Harrison Graham from Prime Construction who indicated the areas to be surveyed. The weather conditions at the time of inspection were slightly overcast with some light precipitation.

The survey consisted of visual, non-intrusive walk around inspection.

All defects observed during the inspection have been photographed, their locations noted and are on file with Costin Roe Consulting.

B) LIMITATIONS

I This report has the following limitations:

- The inspection is a visual inspection only. It is not a structural report, however it is a photographic record of the main structural defects visible at the time of inspection. Areas that were conceded by finishes, furnishings, machinery, vegetation etc. were not inspected.
- We have not reported on cosmetic defects in finishes, joinery, furnishings etc. The report does not contain an exhaustive list of all minor defects in the property which are found in all buildings, hardstands, and roads (general wear and tear, hairline cracking, cosmetic blemishes etc.)
- The report does not cover issues such as building services, hazardous materials, fire safety, pest infection, mould, machinery, durability of finishes, cosmetic defects, nor does it consider compliance with the National Construction Code or relevant Australian standards.
- The external façade was inspected from ground level only.
- No testing of materials, core drilling, structural sampling etc. has been carried out.

C) OBSERVATIONS & COMMENTS

During the time of our inspections, the following observations were made (refer to the table on the following page). Please refer to the corresponding Appendices for each item for the photographs.

ITEM	Pre-Condition Dilapidation Inspection	PHOTO
1	Western Boundary The western boundary consists primarily of the gravel road, concrete footpath and kerbs. Refer to Appendix A for the item locations and for the photo report.	
1.1	Chainage 0-10m	
1.1.1	General view of the footpath and road taken facing south	1-2
1.1.2	General view of damage to the kerb	3
1.1.3	Cracking in the kerb joint measured to be approximately 1.4mm	4
1.1.4	General view of damage to the kerb	5
1.1.5	General view of the footpath and road taken facing south	6
1.1.6	General view of concrete stop valve subsoil box	7-8
1.1.7	Cracking in the kerb joint measured to be approximately 0.8mm	9
1.1.8	General view of the footpath and driveway taken facing south-east	10-11
1.1.9	General view of damage to the kerb	12-13
1.1.10	General view of the footpath and driveway taken facing south-east	14-16
1.1.11	General view of dirt road adjacent driveway	17
1.1.12	General view of the footpath and driveway taken facing south	18-19
1.1.13	Damage to the driveway observed	20
1.1.14	General view of the road taken facing south	21-24
1.1.15	General view of the footpath and road taken facing south	25
1.1.16	General view of the footpath and road taken facing north-west	26
1.1.17	General view of the footpath and road taken facing west	27
1.1.18	General view of the footpath and driveway taken facing south	28-30
1.1.19	Damage to the driveway observed	31
1.1.20	General view of the footpath and driveway taken facing south	32

1.1.1.21	General view of grated drain	33
1.1.1.22	General view of the footpath and driveway taken facing south	34
1.1.1.23	General view of the road taken facing west	35-36
1.1.1.24	General view of the footpath and road taken facing south-west	37-38
1.1.1.25	General view of the road taken facing west	39
1.1.1.26	General view of the road taken facing north-west	40
1.2	Chainage 10-20m	
1.2.1	General view of the footpath and road taken facing south	41-43
1.2.2	General view of dirt road adjacent driveway	44
1.2.3	General view of the footpath and road taken facing south	45-46
1.2.4	General view of the footpath and road taken facing north-east	47
1.2.5	General view of the footpath and road taken facing south	48-50
1.2.6	General view of damage to the kerb	51-52
1.2.7	General view of the footpath and road taken facing south	53-55
1.2.8	General view of the footpath and kerb facing east	56-58
1.3	Chainage 20-30m	
1.3.1	General view of the footpath and kerb facing east	59
1.3.2	General view of the footpath and road taken facing south	60-63
1.3.3	General view of the footpath and kerb facing east	64-65
1.3.4	General view of NBN pit covers	66-67
1.3.5	Damage to NBN pit cover observed. Cracking of 1.6mm measured	68-69
1.3.6	General view of the footpath and kerb facing west	70-72
1.3.7	General view of the kerb damage. Kerb crack measured to be approximately 1.2mm	73-74
1.3.8	General view of the footpath and road taken facing south	75-78
1.3.9	General view of the footpath and road taken facing east	79-80
1.3.10	General view to the damage of the kerb	81-85
1.3.11	General view of the footpath and road taken facing north	86-87
1.3.12	General view of the footpath and road taken facing west	88

1.3.13	General view of the footpath. Uneven joint between footpaths observed.	89-90
1.3.14	General view of the footpath and road taken facing south	91-92
1.3.15	General view of concrete stop valve subsoil box	93
1.3.16	General view of the footpath and road taken facing south	94
1.3.17	General view of the footpath taken facing west	95-96
1.3.18	General view of the footpath and road taken facing south	97
1.3.19	General view of the road taken facing west	98
1.3.20	General view of the footpath and road taken facing north	99
1.4	Chainage 30-40m	
1.4.1	General view of the footpath and road taken facing south	100
1.4.2	General view of the road taken facing west	101
1.4.3	General view of the footpath taken facing east	102
1.4.4	Cracking to the kerb joint measured to be approximately 1.0mm	103
1.4.5	General view of the footpath and road taken facing south	104-105
1.4.6	General view of the footpath taken facing east	106
1.4.7	General view of services cover	107-108
1.4.8	General view of the footpath and road taken facing south-west	109-111
1.4.9	General view of the footpath and road taken facing west	112
1.4.10	General view of the footpath and road taken facing south-east	113-114
1.4.11	General view of damage to kerb	115-116
1.4.12	General view of the footpath and road taken facing south	117
1.4.13	General view of the footpath taken facing east	118
1.4.14	General view of light pole	119
1.4.15	General view of the footpath and road taken facing south	120-121
1.4.16	General view of the footpath and road taken facing east	122-124
1.4.17	General view of the footpath and road taken facing north	125
1.4.18	General view of the footpath and road taken facing south	126-130
1.4.19	General view of the road taken facing west	131

1.4.20	General view of footpath and kerb taken facing east	132-134
1.4.21	Damage to kerb joint measured to be approximately 5mm	135
1.4.22	General view of footpath and kerb taken facing east	136-137
1.4.23	General view of the footpath and road taken facing north-west	138
1.4.24	General view of the footpath and road taken facing north	139-140
1.5	Chainage 40-50m	
1.5.1	General view of the footpath and road taken facing south	141
1.5.2	Damage to kerb joint	142-144
1.5.3	General view of the footpath and road taken facing south	145-147
1.5.4	Damage to kerb and kerb joint observed	148-151
1.5.5	General view of the footpath taken facing east	152
1.5.6	General view of the footpath and road taken facing south	153-160
1.5.7	Damage to kerb and kerb joint observed	161-164
1.5.8	General view of the footpath and road taken facing south	165-166
1.5.9	Damage to kerb and kerb joint observed	167-170
1.5.10	General view of the footpath and road taken facing south-east	171-173
1.5.11	General view of the footpath and road taken facing north	174
1.5.12	General view of the road taken facing west	175
1.5.13	General view of the footpath and road taken facing south-west	176
1.5.14	General view of the footpath taken facing west	177-178
1.5.15	General view of the footpath and road taken facing south	179-182
1.5.16	General view of the footpath and road taken facing west	183
1.5.17	General view of the footpath and road taken facing north	184
1.5.18	General view of the footpath and road taken facing south	185
1.5.19	General view of the footpath and road taken facing west	186
1.5.20	General view of the footpath and road taken facing south	187-188
1.6	Chainage 50-60m	

1.6.1	General view of the footpath and road taken facing south	189-190
1.6.2	Damage to kerb and kerb joint observed. Cracking measured to be approximately 0.6mm	191-194
1.6.3	General view of the footpath and road taken facing south	195
1.6.4	General view of the footpath and kerb taken facing east	196-201
1.6.5	General view of the footpath and road taken facing south-west	202
1.6.6	General view of NBN pit covers	203-206
1.6.7	General view of the footpath and road taken facing south	207
1.6.8	General view of the footpath and kerb taken facing east	208-211
1.6.9	Damage to the gravel road observed	212-216
1.6.10	General view of the footpath and road taken facing south	217
1.6.11	General view of the footpath and kerb taken facing east	218-220
1.6.12	Damage to kerb and kerb joint observed. Cracking measured to be approximately 1.0mm	221-223
1.6.13	General view of the footpath and road taken facing south	224-225
1.6.14	General view of the footpath and gutter taken facing east	226-231
1.6.15	General view of cracking to gutter. Crack measured to be approximately 2.0mm	232
1.7	Chainage 60-70m	
1.7.1	General view of the footpath and road taken facing south	233-234
1.7.2	General view of the road taken facing west	235
1.7.3	General view of the footpath and road taken facing south	236-239
1.7.4	General view of the footpath and driveway taken facing south	240-242
1.7.5	General view of the driveway taken facing west	243
1.7.6	General view of the footpath and driveway taken facing south	244
1.7.7	General view of the footpath taken facing west	245
1.7.8	General view of the footpath and driveway taken facing south-west	246-248
1.7.9	General view of the driveway taken facing east	249

1.7.10	Cracking to the driveway measured to be approximately 1.0mm	250
1.7.11	General view of the driveway taken facing east	251
1.7.12	General view of the footpath and road taken facing south	252
1.7.13	General view of the footpath and road taken facing east	253
1.7.14	General view of the footpath and road taken facing north	254
1.7.15	General view of the road taken facing west	255
1.8	Chainage 70-80m	
1.8.1	General view of the footpath and road taken facing south	256-268
1.8.2	General view of the footpath and road taken facing east	268-270
1.8.3	Cracking to the kerb joint measured to be approximately 1.2mm	271
1.8.4	General view of the kerb	272
1.8.5	General view of the footpath and road taken facing south	273-274
1.8.6	General view of the kerb and footpath taken facing east	275-276
1.8.7	General view of the footpath and road taken facing south	277-278
1.8.8	General view of the kerb and footpath taken facing east	279
1.9	Chainage 80-90m	
1.9.1	General view of the footpath and road taken facing south	280-282
1.9.2	Damage to the kerb and kerb joint observed. Cracking was measured to be approximately 1.0mm	283-285
1.9.3	General view of the footpath and road taken facing south	286
1.9.4	Damage to the kerb and kerb joint observed. Cracking was measured to be approximately 1.2mm	287-292
1.9.5	General view of the footpath and road taken facing south	293-300
1.9.6	Damage to the kerb and kerb joint observed. Cracking was measured to be approximately 1.2mm	301-303
1.9.7	General view of the footpath and road taken facing south	304
1.9.8	General view of the footpath and kerb taken facing east	305-307
1.9.9	General view of the footpath and road taken facing west	308

1.9.10	General view of the footpath and road taken facing north	309
1.9.11	General view of the footpath and road taken facing south	310-311
1.10	Chainage 90-100m	
1.10.1	General view of the footpath, driveway and road taken facing south	312-321
1.10.2	Damage to gravel road adjacent to the driveway observed	322-326
1.10.3	General view of the footpath and driveway taken facing east	327-332
1.10.4	Cracking to the driveway observed. Crack measured to be approximately 2.0mm	333-334
1.10.5	General view of the footpath, driveway and road taken facing south	335-337
1.10.6	General view of the footpath and road taken facing north-west	338
1.10.7	General view of the footpath and road taken facing west	339
1.11	Chainage 100-110m	
1.11.1	General view of the road taken facing south	340-342
1.11.2	General view of the footpath and road taken facing north-west	343
1.11.3	General view of the footpath and road taken facing south-east	344-346
1.11.4	General view of the footpath and road taken facing north-west	347
1.11.5	General view of the footpath, driveway and road taken facing south	348-355
1.11.6	General view of light pole	356-358
1.11.7	General view of the footpath, driveway and road taken facing south. General view of services cover and stop valve subsail box	359-365
1.11.8	Damage to footpath observed	367-368
1.11.9	Damage to footpath adjacent to driveway and services cover. Cracking measured to be approximately 1.6mm	369
1.11.10	General view of the footpath, driveway and road taken facing south	370
1.12	Chainage 110-120m	
1.12.1	General view of the footpath, driveway and road taken facing south	371-374
1.12.2	General view of the footpath, driveway and road taken facing northeast	375

1.12.3	General view of the footpath, driveway and road taken facing east	376
1.12.4	General view of the footpath, driveway and road taken facing south. General view of the grated drain in the driveway	377-381
1.12.5	General view of the footpath, driveway and road taken facing west	382-386
1.12.6	General view of the footpath, driveway and road taken facing south	387-388
1.13	Chainage 120-130m	
1.13.1	General view of the footpath, driveway and road taken facing south	389-397
1.13.2	General view of grated drain and gutter	398-403
1.13.3	General view of concrete stop valve subsoil box	404
1.13.4	General view of the footpath and road taken facing south	405-407
1.13.5	General view of the footpath, driveway and road taken facing north-west	408-409
1.13.6	General view of the footpath and kerb taken facing south	410-411
1.14	Chainage 130-140m	
1.14.1	General view of the footpath and kerb taken facing east	412
1.14.2	General view of the road taken facing west	413-414
1.14.3	General view of the footpath, gutter and kerb taken facing east. Damage observed to the kerb and measured to be approximately 1.2mm	415-420
1.14.4	General view of the footpath, driveway and road taken facing south	421
1.14.5	Damage to the kerb and kerb joint observed. Crack measured to be approximately 1.0mm	422-424
1.14.6	General view of the footpath, driveway and road taken facing south	425-436
1.14.7	Damage to the kerb and kerb joint observed. Crack measured to be approximately 1.0mm	437-440
1.14.8	General view of area adjacent to the footpath	441-444
1.14.9	General view of the footpath and road taken facing south	445-447
1.15	Chainage 140-150m	
1.15.1	General view of the footpath and road taken facing south & east	448-452
1.15.2	Damage to the kerb and kerb joint observed. Crack measured to be approximately 1.0mm	453-456

1.15.3	General view of the footpath and road taken facing south & east	457-463
1.15.4	Damage to the kerb and kerb joint observed. Crack measured to be approximately 1.0mm	464-467
1.15.5	General view of the footpath and kerb taken facing east	468
1.15.6	General view of the footpath taken facing south. Cracking to the footpath observed measured to be approximately 3.0mm	469-471
1.15.7	General view of the footpath and road taken facing south	472
1.15.8	General view of the road taken facing west	473
1.15.9	General view of the footpath and road taken facing east	474-476
1.16	Chainage 150-160m	
1.16.1	General view of the footpath and road taken facing south & east	477-482
1.16.2	Damage to the kerb and kerb joint observed. Crack measured to be approximately 1.0mm	483-484
1.16.3	General view of the footpath, driveway and road taken facing south & east	485-488
1.16.4	Damage to the kerb and kerb joint observed. Crack measured to be approximately 2.0mm	489-491
1.16.5	General view of the footpath taken facing east. Cracking to the footpath joint observed	492-496
1.16.6	General view of the footpath and road taken facing south & east	497-500
1.16.7	General view of the footpath and road taken facing north-east	501
1.16.8	General view of the footpath and road taken facing north	502
1.16.9	General view of the footpath, driveway and road taken facing south & east	503-508
1.17	Chainage 160-170m	
1.17.1	General view of the footpath, driveway and road taken facing south-east & west	509-513
1.17.2	Cracking to the driveway observed measured to be approximately 8mm	514-516
1.17.3	General view of the footpath, driveway and road taken facing south-east & west	517-521
1.17.4	General view of NBN pit covers	522-525
1.17.5	General view of the footpath and road taken facing south-east & west	526-534
1.17.6	Damage to the kerb and kerb joint observed. Crack measured to be approximately 1.0mm	535-536

1.17.7	General view of the footpath and road taken facing south & west	537-539
1.17.8	General view of the footpath and road taken facing north	540
1.18	Chainage 170-180m	
1.18.1	General view of the footpath, light pole and road taken facing south & east	541-542
1.18.2	Damage to the kerb and kerb joint observed. Crack measured to be approximately 1.0mm	543-544
1.18.3	General view of the footpath, kerb and road taken facing south & east	545-547
1.18.4	Damage to the kerb and kerb joint observed. Crack measured to be approximately 1.2mm	548
1.18.5	General view of the footpath, gutter and road taken facing south & east	549-552
1.18.6	Damage to the kerb and kerb joint observed. Crack measured to be approximately 1.2mm	553-555
1.18.7	General view of footpath and light pole taken facing east	556-557
1.18.8	General view of the footpath, light pole and road taken facing south-west	558-559
1.18.9	General view of concrete stop valve subsoil box	560
1.18.10	General view of the footpath, gutter and road taken facing south & east	561-564
1.18.11	Cracking to the kerb measured to be approximately 0.4mm	565
1.18.12	Cracking to the kerb joint measured to be approximately 1.6mm	566
1.18.13	General view of the footpath, gutter taken facing east	567
1.19	Chainage 180-190m	
1.19.1	General view of the footpath, gutter taken facing south & east	568-570
1.19.2	Damage to the concrete adjacent to the gutter	571-572
1.19.3	Damage to the kerb and kerb joint observed. Crack measured to be approximately 1.2mm	573-574
1.19.4	General view of the footpath and road taken facing south & west	575-576
1.19.5	General view of the footpath, gutter and road taken facing north-east	577
1.19.6	Damage to the kerb and kerb joint observed. Crack measured to be approximately 3.5mm	578-581
1.19.7	General view of the footpath and road taken facing south & east	582-588
1.19.8	Cracking to the kerb joint measured to be approximately 2.5mm	589-590

1.21.8	General view of the footpath and road taken facing south & east	650
1.22	Chainage 210-220m	
1.22.1	General view of the footpath and road taken facing south & east	651-653
1.22.2	Damage to the kerb and kerb joint observed. Crack to the kerb joint measured to be approximately 0.5mm	654
1.22.3	General view of the footpath and road taken facing south & east	655-656
1.22.4	Damage to the kerb and kerb joint observed	657-658
1.22.5	General view of the footpath. Minor chipping to the footpath observed	659-663
1.22.6	General view of the footpath and road taken facing south & east	664-667
1.22.7	Left over concrete observed left on the footpath	668-670
1.22.8	General view of the footpath and road taken facing south & east	671-672
1.22.9	General view of the footpath and road taken facing south & west	673-674
1.22.10	Damage to the kerb and kerb joint observed. Crack to the kerb joint measured to be approximately 1.0mm	675-677
1.22.11	General view of the footpath and road taken facing south & east	678-680
1.22.12	Damage to the kerb and kerb joint observed. Crack to the kerb joint measured to be approximately 1.2mm	681-682
1.22.13	General view of the footpath and road taken facing south & east	683
1.22.14	General view of the footpath and road taken facing north & west	684-685
1.23	Chainage 220-230m	
1.23.1	General view of the footpath and road taken facing south & east	686-693
1.23.2	General view of the footpath and road taken facing east	694-695
1.23.3	Damage to the kerb and kerb joint observed. Crack to the kerb joint measured to be approximately 1.0mm	696-700
1.23.4	General view of the footpath and road taken facing south	701-706
1.23.5	Damage to the kerb and kerb joint observed. Crack to the kerb joint measured to be approximately 3.5mm	707-708
1.23.6	General view of the footpath and kerb taken facing east	709
1.23.7	General view of the footpath and road taken facing west	710

1.23.8	General view of the footpath. Uneven and damaged joint observed in the foot path	711-714
1.23.9	General view of the footpath and road taken facing south	715
1.23.10	General view of the footpath and road taken facing west	716
1.23.11	Damage to the kerb and kerb joint observed. Crack to the kerb joint measured to be approximately 1.2mm	717-718
1.23.12	General view of the footpath and road taken facing south & east	719-720
1.24	Chainage 230-240m	
1.24.1	General view of the footpath and road taken facing south & east	721-724
1.24.2	Damage to the kerb and kerb joint observed	725-726
1.24.3	General view of the footpath taken facing east	727
1.24.4	General view of the footpath and road taken facing south & east	728-729
1.24.5	General view of concrete stop valve subsoil box	730
1.24.6	General view of the footpath, light pole and road taken facing south & east	731-738
1.24.7	Damage to the kerb and kerb joint observed. Crack to the kerb joint measured to be approximately 1.0mm	739
1.24.8	General view of the road taken facing south	740
1.24.9	General view of the footpath and road taken facing south & east	741-742
1.24.10	Damage to the kerb and kerb joint observed	743
1.24.11	General view of concrete stop valve subsoil box	744
1.24.12	General view of the footpath and road taken facing south & east	745
1.24.13	General view of the road taken facing south-west	746
1.24.14	General view of the footpath and kerb taken facing east	747
1.24.15	Damage to the kerb and kerb joint observed. Cracking measured to be approximately 1.0mm	748-750
1.24.16	General view of the road taken facing west	751
1.24.17	General view of the road taken facing north	752
1.24.18	General view of the footpath, light pole and road taken facing south & east	753-755
1.25	Chainage 240-250m	
1.25.1	General view of the footpath, light pole and road taken facing south & east	756
1.25.2	Damage to the kerb and kerb joint observed. Cracking measured to be approximately 1.0mm	757

1.25.3	General view of the footpath and road taken facing the west	758-760
1.25.4	General view of the footpath and road taken facing the west	761
1.25.5	General view of the footpath and gutter taken facing the east	762-763
1.25.6	General view of the footpath and road taken facing south & east	764-767
1.25.7	Damage to the kerb and kerb joint observed	768-770
1.25.8	General view of the footpath and road taken facing the south & east	771-773
1.25.9	General view of the footpath and road taken facing the west	774
1.25.10	General view of the footpath and road taken facing the south & east	775-777
1.25.11	Damage to the kerb and kerb joint observed	778-780
1.26	Chainage 250-260m	
1.26.1	General view of the kerb	781
1.26.2	General view of the footpath and road taken facing the south & east	782-783
1.26.3	General view of the footpath. Damage to the footpath at the joint was observed	784-787
1.26.4	General view of the footpath and road taken facing the south	788-790
1.26.5	General view of the road taken facing west	791-792
1.26.6	General view of the footpath and road taken facing the south & east	793-797
1.26.7	Damage to the kerb observed. Crack measured to be approximately 1.0mm	798
1.26.8	General view of the footpath and road taken facing the south & east	799-805
1.26.9	Damage to the kerb observed. Crack measured to be approximately 0.7mm	806
1.26.10	General view of the footpath and road taken facing the east	807-808
1.26.11	General view of the footpath and road taken facing the south & east	809
1.26.12	General view of the footpath and road taken facing the west	810
1.27	Chainage 260-270m	
1.27.1	General view of the footpath and road taken facing the west	811-812
1.27.2	General view of the footpath and road taken facing the south & east	813-814

1.27.3	General view of the footpath and road taken facing the north-west	815
1.27.4	General view of the footpath and kerb taken facing the east	816-817
1.27.5	General view of the footpath and road taken facing the south & east	818-824
1.27.6	General view of the road taken facing the west	825-826
1.27.7	General view of the footpath and road taken facing the north-west	827
1.27.8	General view of the footpath and kerb taken facing the east	828
1.27.9	Damage to the kerb observed	829-830
1.27.10	General view of the footpath and kerb taken facing the east	831-834
1.27.11	Damage to the kerb observed. Crack measured to be approximately 2.0mm	835
1.27.12	General view of the footpath and kerb taken facing the east	836
1.27.13	General view of the footpath and road taken facing the south & east	837-844
1.27.14	General view of the footpath and road taken facing the west	845-846
1.28	Chainage 270-280m	
1.28.1	General view of the footpath and road taken facing the south & east	847-853
1.28.2	Damage to the kerb observed. Cracking observed measuring approximately 1.4mm	854-856
1.28.3	General view of the footpath and kerb taken facing the east	857-858
1.28.4	General view of the footpath and road taken facing the south & east	859-864
1.28.5	General view of the footpath and road taken facing the north	865
1.28.6	Damage to the kerb and kerb joint observed. Crack measured to be approximately 1.0mm	866-868
1.28.7	General view of the footpath and road taken facing the south & east	869-872
1.29	Chainage 280-290m	
1.29.1	General view of the footpath and road taken facing the south & east	873-875
1.29.2	Damage to the kerb and kerb joint observed. Crack measured to be approximately 1.0mm	875-876
1.29.3	General view of the footpath, driveway and road taken facing the south	877-879

1.29.4	General view of the footpath. Damage and cracking to the footpath observed and measured to be approximately 2.8mm	880-884
1.29.5	General view of the footpath and road taken facing the west	885
1.29.6	General view of the footpath, driveway and road taken facing the south & east	886-892
1.29.7	Damage to the kerb and kerb joint observed	893
1.29.8	General view of the footpath, driveway and road taken facing the south & east	894-896
1.29.9	General view of the road taken facing the west	897
1.29.10	General view of the road taken facing the north	898
1.29.11	General view of the footpath, driveway and road taken facing the south & east	899-900
1.30	Chainage 290-300m	
1.30.1	General view of the footpath, driveway, services cover and road taken facing the south & east	901-910
1.30.2	General view of the footpath, NBN cover and road taken facing the south & east	911-914
1.30.3	Minor cracking adjacent to the NBN cover 0.6mm	915
1.30.4	General view of the footpath, NBN cover and road taken facing the south & east	916-919
1.30.5	Cracking to the kerb joint observed measuring approximately 0.6mm	920
1.30.6	General view of the footpath and road taken facing the west	921
1.30.7	General view of the footpath and road taken facing the north	922-923
1.30.8	General view of the footpath and kerb taken facing the east	924
1.30.9	General view of the footpath and road taken facing the west	925
1.30.10	General view of the footpath, NBN cover and road taken facing the south and east	926-927
1.31	Chainage 300-310m	
1.31.1	General view of the footpath, NBN cover and road taken facing the south and east	928-936
1.31.2	General view of the NBN cover	937
1.31.3	General view of the kerb ramp	938-939
1.31.4	Cracking between the footpath observed	940
1.31.5	General view of the footpath and road taken facing west	941-942
1.31.6	General view of the footpath and kerb taken facing east	943-945

1.31.7	General view of the damage to the kerb	946-947
1.31.8	General view of the kerb ramp	948
1.31.9	General view of damage to the kerb joint adjacent to the kerb ramp	949
1.31.10	General view of the kerb ramp	950
1.31.11	General of the light pole	951
1.31.12	General view of the footpath and kerb taken facing south & east	952-953
1.31.13	General view of the road taken facing west	954-955
1.31.14	General view of the footpath and kerb taken facing east	956
1.32	Chainage 310-320m	
1.32.1	General view of the road taken facing south & east	957-958
1.32.2	General view of the road taken facing west	959
1.32.3	General view of the footpath and kerb taken facing east	960-962
1.32.4	Damage to the kerb and kerb joint observed	963-965
1.32.5	General view of the footpath and kerb taken facing south & east	966
1.32.6	General view of the kerb and kerb joint	967-968
1.32.7	General view of the footpath and road taken facing east	969-970
1.32.8	Damage to kerb observed	971
1.32.9	Damage to the kerb and kerb joint. Cracking measured to be approximately 1.0mm	972-973
1.32.10	General view of the road and footpath taken facing north	974
1.32.11	General view of the footpath and road taken facing south & east	975-980
1.33	Chainage 320-330m	
1.33.1	General view of the road taken facing west	981
1.33.2	General view of the road taken facing north	982
1.33.3	General view of the road taken facing east	983-984
1.33.4	General view of the footpath and road taken facing north-east	985
1.33.5	General view of the footpath and road taken facing west	986
1.33.6	General view of the footpath and road taken facing north-east	987-989

1.33.7	General view of the footpath and road taken facing north	990
2	Upper Southern Boundary The Upper Southern boundary consists primarily of the gravel road, concrete footpath and kerbs. Refer to Appendix B for the item locations and for the photo report.	
2.1	Chainage 0-10m	
2.1.1	General view of the road facing East	1
2.1.2	General view of the footpath and road taken facing North	2-3
2.1.3	General view of road facing East	4
2.1.4	General view of retaining wall facing South	5
2.1.5	General view of footpath facing South	6
2.1.6	General condition of existing balustrade	7-12
2.1.7	General condition of driveway, layback, kerb and gutter	13
2.1.8	General view of saw cut attempt to kerb and gutter	14-15
2.1.9	General view of the footpath and road taken facing East	16
2.1.10	General condition of light pole asset	17
2.1.11	General condition of Telstra asset	18
2.1.12	General view of the footpath and road taken facing South	19-21
2.1.13	General condition of Telstra asset	22
2.1.14	General view of the footpath and road taken facing East	23-24
2.1.15	General condition of concrete joint of kerb and gutter	25-26
2.1.16	General view of the road taken facing East	27-28
2.1.17	General condition of saw cut to kerb and gutter	29
2.2	Chainage 10-20m	
2.2.1	General condition of kerb inlet pit	30-32
2.2.2	Typical concrete chipping to kerb inlet pit	33
2.2.3	General condition of NBN asset	34
2.2.4	General condition of kerb inlet pit	35
2.2.5	General condition caulking to NBN asset	36
2.2.6	Footpath discontinues	37

2.2.7	General condition of driveway, layback, kerb and gutter	38-39
2.2.8	Footpath discontinues	40-41
2.2.9	Typical cracking to kerb, approximate width of 0.5mm	42
2.2.10	Typical joint between kerb, layback and gutter	43
2.2.11	General condition of gutter, layback and driveway, facing East	44-45
2.2.12	General condition of balustrade, facing East	46-51
2.2.13	General condition of balustrade, facing West	52-54
2.2.14	General view of retaining wall capping	55-56
2.3	Chainage 20-30m	
2.3.1	General view of sewer vent and hydrant services	57-58
2.3.2	Typical crack to concrete driveway, approximately 1.2mm wide	59-60
2.3.3	General view of the footpath and road taken facing south	61-62
2.3.4	General view of the footpath and road taken facing south-west	63-64
2.3.5	General view of the dirt road facing East	65
2.3.6	General view of the footpath and road taken facing East	66-67
2.3.7	General view of the footpath, kerb, gutter and road	68
2.3.8	General view of balustrade and retaining wall facing East	69-70
2.3.9	General view of the footpath, kerb, gutter and road	71-76
2.3.10	General conditions of joint of kerb and gutter	77-79
2.3.11	Crack to kerb, approximately 1.2mm wide	80-82
2.4	Chainage 30-40m	
2.4.1	General view of the footpath, kerb, gutter and road facing East	83-85
2.4.2	Crack to kerb, approximately 1.2mm wide	86-88
2.4.3	General view of the footpath, kerb, gutter, balustrade, retaining wall and road	89-100
2.4.4	Typical view of joint to concrete footpath	101
2.4.5	General view of concrete footpath, kerb and gutter	102-103
2.4.6	Concrete patch section to kerb	104
2.4.7	Damage to concrete kerb	105
2.4.8	Typical condition of concrete kerb	106
2.4.9	Typical crack to joint of concrete kerb, approximately 0.6mm wide	107-111
2.4.10	General view of the footpath, kerb, gutter and road facing East	112-115

2.5	Chainage 40-50m		116-119
2.5.1	General view of the footpath and kerb facing east		
2.5.2	Patch to concrete kerb		120-121
2.5.3	General view of the footpath, kerb, gutter, balustrade, retaining wall and road		122-135
2.6	Chainage 50-60m		
2.6.1	General view of the footpath, kerb, gutter, balustrade, retaining wall and road		136-150
2.6.2	Typical crack to concrete kerb, approximately 1.2mm wide		151-152
2.6.3	Patch to concrete kerb		153-155
2.6.4	Cracking to the kerb joint measured to be approximately 1.0mm		156-159
2.6.5	Typical crack to joint of concrete kerb		160-161
2.7	Chainage 60-70m		
2.7.1	General view of the footpath, kerb, gutter, balustrade, retaining wall and road		162-171
2.7.2	General condition of kerb inlet pit		172-173
2.7.3	General view of concrete kerb and gutter		174-177
2.7.4	General view of the footpath and road taken facing East		178-179
2.8	Chainage 70-80m		
2.8.1	General condition of joint between kerb and gutter		180-182
2.8.2	General view of concrete driveway		183
2.8.3	General view of the footpath, kerb, gutter, balustrade, retaining wall and road		184-190
2.8.4	Typical chipping to concrete driveway		191-192
2.8.5	General view of driveway and dirt road		193-199
2.9	Chainage 80-90m		
2.9.1	General condition of concrete footpath, driveway, layback and gutter		200-203
2.9.2	Typical crack to concrete driveway, approximately 1.6mm wide		204
2.9.3	General view of concrete footpath and driveway		205-206
2.9.4	General view of balustrade		207-208
2.9.5	General view of concrete driveway		209-214
2.10	Chainage 90-100m		
2.10.1	General view of the footpath, kerb, gutter, balustrade, retaining wall and road		215-232
2.10.2	Typical condition of joint between kerb and gutter		233-234
2.10.3	General view of footpath facing north		235

2.11	Chainage 100-110m		
2.11.1	General view of the footpath, kerb, gutter, balustrade, retaining wall and road		236-237
2.11.2	Typical crack to joints between kerb, approximately 1.2mm wide		238-239
2.11.3	General view of the footpath, kerb, gutter, balustrade, retaining wall and road		240-244
2.11.4	Typical crack to joints between kerb, approximately 1.2mm wide		245-246
2.11.5	General view of the footpath, kerb, gutter, balustrade, retaining wall and road		247-255
2.11.6	Typical crack to joints between kerb, approximately 1.0mm wide		256
2.11.7	General view of materials on dirt road		257
2.11.8	General view of hole adjacent footpath		258
2.11.9	General condition of free		259
2.11.10	General condition of light pole		260-261
2.11.11	General view of the footpath, kerb, gutter and road		262-264
2.11.12	Typical crack to kerb joint		265-266
2.11.13	General condition of free and light pole		267-268
2.12	Chainage 110-120m		
2.12.1	General view of the footpath, kerb, gutter, balustrade, retaining wall and road		269-271
2.12.2	Typical crack to joints between kerb, approximately 1.0mm wide		272-273
2.12.3	General condition of light pole		274
2.12.4	General condition of free		275-276
2.12.5	General view of dirt road, facing East		277-279
2.12.6	General condition of free		280
2.12.7	General view of the footpath, kerb, gutter, balustrade, retaining wall and road		281-289
2.12.8	General view of footpath terminating		290
2.12.9	General view of the footpath and road taken facing East		291-300
2.12.10	General view of black box camera services		301-302
2.13	Chainage 120-130m		
2.13.1	General view of the footpath and road taken facing east		303-309
2.13.2	Typical crack to joint between concrete kerb		310-312
2.13.3	General condition of NBN services		313-314
2.13.4	General view of termination to footpath		315
2.13.5	General view of NBN Asset		316

2.13.6	General view of the footpath, kerb, gutter, balustrade, retaining wall and road	317-323
2.14	Chainage 130-140m	
2.14.1	General view of the footpath, kerb, gutter, balustrade, retaining wall and road	324-334
2.15	Chainage 140-150m	
2.15.1	General view of shotcrete retaining wall	335-338
2.15.2	General view of concrete retaining wall facing north	339
2.15.3	General view of shotcrete retaining wall	340-345
2.15.4	Typical crack to shotcrete wall, approximately 10mm wide	346
2.15.5	Typical crack to shotcrete wall, approximately 1.4mm wide	347-348
2.15.6	General view of shotcrete retaining wall	349-351
2.15.7	Typical crack to shotcrete wall, approximately 1.2mm wide	352-353
2.15.8	General view of shotcrete retaining wall	354-355
2.15.9	Typical crack to shotcrete wall, approximately 1.2mm wide	356-357
2.15.10	General view of shotcrete retaining wall	358
2.15.11	General view of concrete kerb, gutter and dirt road	359-365
3	Southern Boundary Wall *It is to be noted at the time of the inspection, excavation works were being undertaken and as such the entire chainage of the southern boundary wall was not able to be captured. The inspection of the wall started on the eastern side moving west The Southern Boundary wall is primarily constructed of reinforced masonry block work. Refer to Appendix C for the item locations and for the photo report.	
3.1	Chainage 150-140m	
3.1.1	General view of retaining wall, facing South	1-6
3.1.2	Typical chipping to blockwork wall, approximately 15mm	7-8
3.1.3	Typical chipping to blockwork wall, approximately 15mm	9-10
3.1.4	Typical chipping to blockwork wall, approximately 20mm	11-12
3.1.5	General view of retaining wall, facing South	13-15
3.2	Chainage 140-130m	

3.2.1	General view of retaining wall, facing South	16-18
3.2.2	Typical gaps to mortar joints	19
3.2.3	General view of retaining wall, facing South	20
3.3	Chainage 130-120m	
3.3.1	General view of retaining wall, facing South	21-23
3.3.2	Typical gaps to mortar joints, approximately 10mm wide	24
3.3.3	General view of retaining wall, facing South	25-27
3.3.4	Typical gaps to mortar joints, approximately 10mm wide	28
3.3.5	General view of retaining wall, facing South	29-30
3.4	Chainage 120-110m	
3.4.1	General view of retaining wall, facing South	31-34
3.4.2	Damage to blockwork observed	35
3.4.3	General view of retaining wall, facing South	36
3.4.4	Typical cracking to blockwork, approximately 2mm wide	37-38
3.5	Chainage 110-100m	
3.5.1	General view of retaining wall, facing South	39-42
3.6	Chainage 100-90m	
3.6.1	General view of retaining wall, facing South	43-46
3.6.2	Typical cracking to blockwork, approximately 1mm wide	47-49
3.6.3	General view of retaining wall, facing South	50-53
4	Inner Eastern Boundary The Inner Eastern Boundary is primarily constructed of reinforced masonry block work retaining wall. This was inspected from the side of the development site. Refer to Appendix D for the item locations and for the photo report.	
4.1	Chainage 0-10m	
4.1.1	General view development site area facing West	1

4.1.2	General view development site area facing East	2-5
4.1.3	General view of retaining wall capping and balustrade, facing South	6-12
4.2	Chainage 10-20m	
4.2.1	General view of retaining wall capping and balustrade, facing South	13-15
4.3	Chainage 20-30m	
4.3.1	General view of retaining wall capping and balustrade, facing South	16-22
4.4	Chainage 30-40m	
4.4.1	General view of retaining wall capping and balustrade, facing South	23-28
4.5	Chainage 40-50m	
4.5.1	Typical construction debris on retaining wall capping	29-30
4.5.2	General view of retaining wall capping and balustrade, facing South	31-34
4.5.3	Typical chipping to capping of retaining wall	35-36
4.5.4	General view of retaining wall capping and balustrade, facing South	37
4.6	Chainage 50-60m	
4.6.1	General view of retaining wall capping and balustrade, facing South	38-40
4.6.2	Typical crack to retaining wall capping, approximately 1mm	41-42
4.6.3	Typical chipping to capping of retaining wall	43
4.7	Chainage 60-70m	
4.7.1	General view of retaining wall capping and balustrade, facing South	44-47
4.7.2	Typical chipping to capping of retaining wall	48
4.7.3	General view of retaining wall capping and balustrade, facing South	49-52
4.8	Chainage 70-80m	

4.8.1	General view of retaining wall capping and balustrade, facing South	53-64
4.9	Chainage 80-90m	
4.9.1	General view of retaining wall capping and balustrade, facing South	65-68
4.9.2	Typical chipping to capping of retaining wall	69
4.9.3	General view of retaining wall capping and balustrade, facing South	70-73
4.10	Chainage 90-100m	
4.10.1	General view of retaining wall capping and balustrade, facing South	74-80
4.10.2	Typical chipping to capping of retaining wall	81
4.10.3	General view of retaining wall capping and balustrade, facing South	82-84
4.11	Chainage 100-110m	
4.11.1	General view of retaining wall capping and balustrade, facing South	85-89
4.12	Chainage 110-120m	
4.12.1	General view of retaining wall capping and balustrade, facing South	90-102
4.13	Chainage 120-130m	
4.13.1	General view of retaining wall capping and balustrade, facing South	103-107
4.14	Chainage 130-140m	
4.14.1	General view of retaining wall capping and balustrade, facing South	108-112
4.15	Chainage 140-150m	
4.15.1	General view of retaining wall capping and balustrade, facing South	113-115
4.16	Chainage 150-160m	
4.16.1	General view of retaining wall capping and balustrade, facing South	116-121

4.16.2	Typical chipping to capping of retaining wall	122
4.17	Chainage 160-170m	
4.17.1	General view of retaining wall capping and balustrade, facing South	123-128
4.18	Chainage 170-180m	
4.18.1	General view of retaining wall capping and balustrade, facing South	129-134
4.19	Chainage 180-190m	
4.19.1	General view of retaining wall capping and balustrade, facing South	135-136
4.19.2	Typical chipping to capping of retaining wall	137
4.19.3	General view of retaining wall capping and balustrade, facing South	138
4.20	Chainage 190-200m	
4.20.1	General view of retaining wall capping and balustrade, facing South	139-149
4.21	Chainage 200-210m	
4.21.1	General view of retaining wall capping, fence gate and balustrade, facing South	150-154
4.21.2	General condition of slanted fence post	155
4.21.3	General condition of fence and fence bracing	156-160
4.21.4	General view of retaining wall, fence and balustrade, facing South	161-165
4.22	Chainage 210-220m	
4.22.1	General view of retaining wall, fence and balustrade, facing South	166-173
4.22.2	Typical crack to concrete retaining wall, approximate width of 0.8mm	174
4.22.3	General view of retaining wall, fence and balustrade, facing South	175
4.23	Chainage 220-230m	
4.23.1	General view of retaining wall, fence and balustrade, facing South	176-178

4.23.2	Typical crack to concrete retaining wall, approximate width of 0.6mm	179
4.23.3	General view of retaining wall, fence and balustrade, facing South	180-183
4.23.4	Typical crack to concrete retaining wall, approximate width of 1.0mm	184
4.23.5	General view of retaining wall, fence and balustrade, facing South	185-188
4.24	Chainage 230-240m	
4.24.1	General view of retaining wall, fence and balustrade, facing South	189
4.24.2	Typical chipping to concrete retaining wall	190-192
4.24.3	General view of retaining wall, fence and balustrade, facing South	193-196
4.25	Chainage 240-250m	
4.25.1	General view of retaining wall, fence and balustrade, facing South	197-204
4.25.2	Typical crack to concrete retaining wall, approximate width of 0.5mm	205
4.25.3	General view of retaining wall, fence and balustrade, facing South	206
4.25.4	Typical crack to concrete retaining wall, approximate width of 0.4mm	207
4.25.5	General view of retaining wall, fence and balustrade, facing South	208
4.26	Chainage 250-260m	
4.26.1	General view of retaining wall, fence and balustrade, facing South	209-212
4.26.2	Typical crack to concrete retaining wall, approximate width of 0.6mm	213
4.26.3	General view of retaining wall, fence and balustrade, facing South	214
4.26.4	Typical crack to concrete retaining wall, approximate width of 0.4mm	215-216

4.27	Chainage 260-270m	
4.27.1	General view of retaining wall, fence and balustrade, facing South	217-220
4.27.2	Typical crack to concrete retaining wall, approximate width of 0.5mm	221-222
4.27.3	General condition of hole to retaining wall	223
4.27.4	Typical crack to concrete retaining wall, approximate width of 0.4mm	224-225
4.28	Chainage 270-280m	
4.28.1	General view of retaining wall, fence and balustrade	226-229
4.28.2	Typical crack to concrete retaining wall, approximate width of 0.4mm	230
4.28.3	General view of retaining wall, fence and balustrade	231-233
4.28.4	Typical crack to concrete retaining wall, approximate width of 1.0mm	234
4.28.5	General view of retaining wall, fence and balustrade	236-238
4.29	Chainage 280-290m	
4.29.1	General view of retaining wall, fence and balustrade	239-242
4.29.2	Typical crack to concrete retaining wall, approximate width of 0.2mm	243
4.29.3	General view of retaining wall, fence and balustrade	244-245
4.29.4	Typical crack to concrete retaining wall, approximate width of 1.2mm	246
4.29.5	General view of retaining wall, fence and balustrade	247-248
4.30	Chainage 290-300m	
4.30.1	General view of retaining wall, fence and balustrade	249-252
4.30.2	Typical crack to concrete retaining wall, approximate width of 0.3mm	253-254
4.30.3	Typical crack to concrete retaining wall, approximate width of 1.0mm	255
4.30.4	General view of retaining wall, fence and balustrade	256-258

4.31	Chainage 300-310m	
4.31.1	General view of retaining wall, fence and balustrade	259-262
4.31.2	Typical crack to concrete retaining wall, approximate width of 0.4mm	263
4.31.3	General view of retaining wall, fence and balustrade	264
4.31.4	Typical crack to concrete retaining wall, approximate width of 0.4mm	265
4.31.5	General view of retaining wall, fence and balustrade	266-269
4.32	Chainage 310-320m	
4.32.1	General view of retaining wall, fence and balustrade	270-277
5	Outer Eastern Boundary The outer eastern boundary comprises primarily of the block retaining and the black woven wire mesh fence. Due to the tall vegetation and grass between the inner and our eastern boundary, access was limited. Photos were taken externally from the wire mesh fence side. Refer to Appendix E for the item locations and for the photo report.	
5.1	Chainage 00-10m	
5.1.1	General view of the block retaining wall and mesh wire fence taken facing south-west	1-5
5.2	Chainage 10-20m	
5.2.1	General view of the block retaining wall and mesh wire fence taken facing south-west	6-9
5.3	Chainage 20-30m	
5.3.1	General view of the block retaining wall and mesh wire fence taken facing south-west	10-15
5.4	Chainage 30-40m	
5.4.1	General view of the block retaining wall and mesh wire fence taken facing south-west	16-18
5.5	Chainage 40-50m	
5.5.1	General view of the block retaining wall and mesh wire fence taken facing south-west	19-21
5.6	Chainage 50-60m	
5.6.1	General view of the block retaining wall and mesh wire fence taken facing south-west	22-25

5.7	Chainage 60-70m		
5.7.1	General view of the block retaining wall and mesh wire fence taken facing south-west		26-30
5.8	Chainage 70-80m		
5.8.1	General view of the block retaining wall and mesh wire fence taken facing south-west		31-34
5.9	Chainage 80-90m		
5.9.1	General view of the block retaining wall and mesh wire fence taken facing south-west		35-38
5.10	Chainage 90-100m		
5.10.1	General view of the block retaining wall and mesh wire fence taken facing south-west		39-43
5.11	Chainage 100-110m		
5.11.1	General view of the block retaining wall and mesh wire fence taken facing south-west		44-48
5.12	Chainage 110-120m		
5.12.1	General view of the block retaining wall and mesh wire fence taken facing south-west		49-53
5.13	Chainage 120-130m		
5.13.1	General view of the block retaining wall and mesh wire fence taken facing south-west		54-57
5.14	Chainage 130-140m		
5.14.1	General view of the block retaining wall and mesh wire fence taken facing south-west		58-60
5.15	Chainage 140-150m		
5.15.1	General view of the block retaining wall and mesh wire fence taken facing south-west		61-64
5.16	Chainage 150-160m		
5.16.1	General view of the block retaining wall and mesh wire fence taken facing south-west		65-67
5.17	Chainage 160-170m		
5.17.1	General view of the block retaining wall and mesh wire fence taken facing south-west		68-69
5.18	Chainage 170-180m		

5.18.1	General view of the block retaining wall and mesh wire fence taken facing south-west	70-73
5.19	Chainage 180-190m	
5.19.1	General view of the block retaining wall and mesh wire fence taken facing south-west	74-76
5.20	Chainage 190-200m	
5.20.1	General view of the block retaining wall and mesh wire fence taken facing south-west	77-81
5.21	Chainage 200-210m	
5.21.1	General view of the block retaining wall and mesh wire fence taken facing south-west	82-86
5.22	Chainage 210-220m	
5.22.1	General view of the wire mesh fence	87-88
5.23	Chainage 220-230m	
5.23.1	General view of the wire mesh fence	87-88
5.23.2	General view of the wire mesh fence and cattle gate	89-95
5.23.3	Wire mesh fence observed to be deformed and damaged	96-98
5.23.4	Damage observed to the wooden cattle gate supports	99-103
5.24	Chainage 230-240m	
5.24.1	General view of the wire mesh fence and outer eastern boundary taken facing south	104-107
5.25	Chainage 240-250m	
5.25.1	General view of the top of the retaining wall and handrail	108-110
5.25.2	General view of the wire mesh fence and outer eastern boundary taken facing south	111-112
5.26	Chainage 250-260m	
5.26.1	General view of the wire mesh fence and outer eastern boundary taken facing south	113
5.26.2	General view of the top of the retaining wall and handrail. Damage to top of the retaining wall	114

5.26.3	General view of the wire mesh fence and outer eastern boundary taken facing south	115
5.27	Chainage 260-270m	
5.27.1	General view of the wire mesh fence and outer eastern boundary taken facing south	116-119
5.27.2	General view of the top of the retaining wall and handrail. Damage to top of the retaining wall	120-121
5.28	Chainage 270-280m	
5.28.1	General view of the wire mesh fence and outer eastern boundary taken facing south	122-127
5.29	Chainage 280-290m	
5.29.1	General view of the wire mesh fence and outer eastern boundary taken facing south	128
5.29.2	General view of the top of the retaining wall and handrail. Cracking to the top of the retaining wall measured to be approximately 2.0mm	129-130
5.29.3	General view of the wire mesh fence and outer eastern boundary taken facing south	131-134
5.30	Chainage 290-300m	
5.30.1	General view of the wire mesh fence and outer eastern boundary taken facing south	135-136
5.30.2	Damage to the top of the retaining wall observed. Cracking measured to be approximately 2.8mm	137-138
5.30.3	General view of the wire mesh fence and outer eastern boundary taken facing south	139-141
5.31	Chainage 300-310m	
5.31.1	General view of the wire mesh fence and outer eastern boundary taken facing south	142-144
5.31.2	General view of the top of the retaining wall and handrail. Cracking to the top of the retaining wall measured to be approximately 1.8mm	145-146
5.31.3	General view of the top of the retaining wall and handrail. Cracking to the top of the retaining wall measured to be approximately 1.8mm	147-148

5.31.4	General view of the wire mesh fence and outer eastern boundary taken facing south	149
5.31.5	General view of the top of the retaining wall and handrail. Cracking to the top of the retaining wall measured to be approximately 3.0mm	150-152
5.31.6	General view of the wire mesh fence and outer eastern boundary taken facing south	153
5.32	Chainage 310-320m	
5.32.1	General view of the wire mesh fence and outer eastern boundary taken facing south	154
5.32.2	Damage to the top of the retaining wall observed	155-156
5.32.3	General view of the wire mesh fence and outer eastern boundary taken facing south	157-160
5.32.4	Damage to the top of the retaining wall observed	161-165
5.32.5	General view of the wire mesh fence and outer eastern boundary taken facing south	166
5.33	Chainage 320-330m	
5.33.1	General view of the wire mesh fence and outer eastern boundary taken facing south	167
5.33.2	General view of the top of the retaining wall and handrail	168-172
5.33.3	General view of the wire mesh fence and outer eastern boundary taken facing south	173-175
5.34	Chainage 330-340m	
5.34.1	General view of the wire mesh fence and outer eastern boundary taken facing south	176-181
5.34.2	General view of the top of the retaining wall and handrail. Cracking measured to be 2.8mm	182-183
5.35	Chainage 340-350m	
5.35.1	General view of the wire mesh fence and outer eastern boundary taken facing south	184-192
5.35.2	General view of the top of the retaining wall and handrail. Cracking measured to be 2.0mm	193-196

5.35.3	General view of the wire mesh fence and outer eastern boundary taken facing south	197-202
5.35.4	General view of the wire mesh fence and outer eastern boundary taken facing north	203

D) CONCLUSION

We trust this report meets your current requirements and should you wish to discuss the matter further please do not hesitate to contact the undersigned.

Yours faithfully

COSTIN ROE CONSULTING PTY LTD

Matthew Nguyen
Remedial Engineer
