Modification Description

This Section 4.55(1A) modification application seeks consent to amend the approved drawings to reflect minor design modifications relating to the basement design. The main amendment removes unnecessary stepping in the basement footprint to enable a contiguous shoring design. All changes are confined below ground and do not alter the approved built form or external appearance.

How is the modification substantially the same as the original development?

The development consent as proposed to be modified, will remain substantially the same as the original development consent, with the proposed modifications representing only a minor amendment to the original consent and will not introduce any new unreasonable or substantive environmental impact.
