Subject: RE: North Byron Parklands Cultural Events Site (SSD 8169) - Addendum to the Response to Submissions Report

Categories: Agency Response

Good morning

I've reviewed the North Byron Parklands Cultural Events Site – Response to Submissions Addendum. The responses accept the concerns raised by Road and Maritime however the suggested means by which to manage the concerns are still subject to the successful delivery of initiatives which will be outlined in the Transport Management Plan and reported in the Traffic Monitoring Program.

The consequences of not achieving the acceptable performance measures on the Pacific Highway are considered to be significant due to the traffic volumes and the high speed environment.

Events with 35,000 patrons have demonstrated performance but events of 42,500 and 50,000 patrons have not been tested.

Roads and Maritime suggests that a permanent approval for events of the 42,500 and 50,000 patrons should be subject to further trials.

If you have any further enquiries regarding the above comments please do not hesitate to contact John Perkins, Development Assessment Officer on [REDACTED] or via email at: development.northern@rms.nsw.gov.au

Kind Regards
John Perkins
