Dear Ms Morales

Response to Submissions Addendum - North Byron Parklands SSD 8169

The Natural Resource Access Regulator (NRAR) has had the opportunity to review the North Byron Parklands Cultural Events Site response to submissions (RTS) addendum, dated September 2018, for the North Byron Parklands.

The project proposes to modify the current proposal by increasing parking, amenities and accommodation on site, as well as develop the vegetation offset area.

NRAR is satisfied with the RTS Addendum as it has addressed all of NRAR's concerns discussed in NRAR's previous comments in the original RTS. At this time NRAR has no further comments.

Please contact Annika Lawrence, Water Regulation Officer, on [REDACTED] or [REDACTED] if you have further enquiries regarding this matter.

Yours sincerely

Irene Zinger
Manager, Water Regulation Branch (East)
