

Consolidated Concept Plan Approval

The Department has prepared a consolidated version of the approval which is intended to include all modifications to the original determination instrument.

The consolidated version of the approval has been prepared by the Department with all due care. This consolidated version is intended to aid the approval holder by combining all modifications relating to the original determination instrument but it does not relieve an approval holder of its obligation to be aware of and fully comply with all approval obligations as they are set out in the legal instruments, including the original determination instrument and all subsequent modification instruments.

A3 Project in accordance with plans

The Proponent **must** carry out the concept plan and all related future **development** applications in accordance with the plans **outlined in Table 1**.

Table 1: Structure Plans

Structure Plans prepared by Design Team Ink, updated by Planners North		
Job No.	Title	Date
1287.3487	Land Use Structure Plan	November 2020
1287.3487	Ecological Structure Plan	March 2021

A4 Consistency of future development

- 1) In the event of any inconsistency between:
 - a) this approval and the drawings/documents referred to in terms A2 and A3, this approval prevails to the extent of the inconsistency;
 - b) any drawing/document listed in terms A2 and A3 and any other drawing/document listed in terms A2 and A3, the most recent document/ plan shall prevail to the extent of the inconsistency;
 - c) this approval and the **Management and Mitigation Measures** (at Schedule 3), this approval prevails to the extent of the inconsistency.
- 2) If there is any inconsistency between this concept plan approval and any future application/ project, this concept plan approval shall prevail to the extent of the inconsistency.

A5 Lapsing of approval

This concept plan approval shall lapse five (5) years after the date of this approval, unless works the subject of the project approval for Stage 1 have physically commenced on or before that lapse date.

CONSOLIDATED APPROVAL

PART B – MODIFICATIONS TO THE CONCEPT PLAN

B2 Trial period for outdoor events

- 1) Concept approval is granted for a trial period up to **31 August 2019**.
- 2) The **Secretary** may approve up to 3 trial events each calendar year, being one large trial event, one medium trial event and one small trial event. The **Secretary** may also approve additional small or medium events in place of a larger trial event during any calendar year so long as the number of trial events for the year does not exceed 3.
- 3) The total event days for each calendar year must not exceed 10 days. The total camper arrival and departure days each calendar year must not exceed 6 days.
- 4) The maximum number of patrons that may be approved for each large, medium or small trial event depends on the number of trials that have been held of events in that class, as set out in the Table below.

Number of trial	Large trial event	Medium trial event	Small trial event
First trial	Up to 25,000 patrons	Up to 15,000 patrons	Up to 10,000 patrons
Second trial	Up to 27,500 patrons	Up to 17,500 patrons	Up to 12,000 patrons
Third trial	Up to 30,000 patrons	Up to 20,000 patrons	Up to 13,000 patrons
Fourth trial	Up to 32,500 patrons	Up to 22,500 patrons	Up to 14,000 patrons
Fifth trial (and subsequent trial events)	Up to 35,000 patrons	Up to 25,000 patrons	Up to 15,000 patrons

- 5) This approval permits **FIVE** minor community events within 12 months following the determination date of MOD 3.
- 6) No more than 10 minor community events may be held after the period specified in clause 5), subject to the Proponent obtaining further approval from the **Secretary** and following consideration of the 'Performance Report for Minor Events' required by Condition B7(7) of Project Approval MP 09_0028.

B3 Approval process for trial events

The process for approving trial events, including the **Secretary's** powers to limit or regulate trial events, must be set out in the project approval for the trial period.

B5 Modifications to on-site effluent irrigation

To ensure the protection of existing groundwater conditions and adjoining environments, no on-site effluent irrigation is to occur on land south of Jones Road. The Proponent must provide suitable areas for on-site effluent irrigation on land north of Jones Road, without introducing any adverse environmental impacts.

PART C – REQUIREMENTS FOR FUTURE APPLICATIONS

Pursuant to sections 75P(2)(c) of the Act the following requirements apply, as relevant, with respect to future stages of the project to be assessed under Part 4 of the Act:

C1 Future outdoor events

- 1) **Concept approval is given for future outdoor events for up to 50,000 patrons per event day.**
- 2) The performance of **previous** outdoor events **held at the site** must be addressed as part of any development application under Part 4 for **future** outdoor events.
- 3) Any development application for **future** outdoor events **under Part 4** must be accompanied by an environmental management and monitoring plan that details the management strategies, monitoring regimes and regular reporting on the following matters:
 - noise
 - traffic and transport
 - flora and fauna
 - bushfire
 - flood
 - surface water
 - event management.

C2 Additional flood modelling

The following matters are to be addressed as part of any development application for the proposed conference centre and cultural centre:

- 1) The Proponent must undertake further flood modelling of the site at a localised/catchment level with the aid of a detailed hydrological and hydraulic model prior to the construction of the conference centre and/or cultural centre.
- 2) The additional flood modelling must take into consideration the existing flood behaviour of the site and climate change requirements and provide an indication of any further flood impacts anticipated as a result of the constructed conference centre and/or cultural centre.
- 3) The Proponent must submit details of an appropriate drainage system designed around these proposed facilities, including incorporation of water sensitive urban design measures.
- 4) Any future drainage systems introduced must not generate any detrimental impacts on the sites existing infrastructure.
- 5) Any future drainage systems introduced must not exacerbate the sites existing flood regime, or exacerbate the impacts of flooding on any land adjoining the site.

C3 Habitable floor levels

Floor levels of all permanent habitable structures proposed as part of any future development application must be constructed a minimum of 500mm above the 100 year ARI flood level including relevant climate change requirements applying at the time of lodgement of the development applications.
